Mainstreet Health Investments Inc. (the "Company'') was incorporated on May 31, 2007 under the Business Corporations Act (Ontario). Effective April 4, 2016, the Company changed its name from "Kingsway Arms Retirement Residences Inc." to "Mainstreet Health Investments Inc." and continued under the laws of the Province of British Columbia. The Company's registered office is 2500 - 700 W Georgia Street, Vancouver, British Columbia V7Y 1B3.

On April 4, 2016, the Company acquired Mainstreet Investment Company, LLC's ("MS Investment") interest in a joint venture, Mainstreet Health Holdings Inc. ("MHI Holdco"), for consideration consisting of the issuance of 81,160,000 common shares and 307,659,850 non-voting shares of the Company. MS Investment is owned 100% by the chairman of the Company.

On May 26, 2016, the Company filed a prospectus relating to an offering ("the Offering") of 9,500,000 common shares of the Company. Upon completion of the offering on June 2, 2016, the Company acquired the remaining shares of MHI Holdco subsequent to the conversion of the outstanding 2015 Convertible Debentures of MHI Holdco into common shares of MHI Holdco. This acquisition is a reverse takeover transaction which has been accounted for as an asset acquisition in which MHI Holdco has been identified as the acquirer of the Company and the acquisition has been recorded in accordance with IFRS 2, Share-based Payment. As the former shareholder of MHI Holdco owned a controlling interest in the Company at the closing of the transaction, the financial statements of the Company reflect the historical results of MHI Holdco and the acquisition of the net assets of the Company at fair value on the date of closing.

The Company has been formed primarily to own income-producing seniors housing and care properties throughout the United States and Canada. Specifically, the Company will look to acquire and invest in properties which offer predominately transitional care, long-term care, memory care assisted living and independent living programs that are leased to operators under triple-net leases. At June 30, 2017, the Company owns a portfolio of 38 seniors housing and care properties.

1. Basis of preparation:

Statement of compliance:

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34, Interim Financial Reporting, as issued by the International Accounting Standards Board ("IASB"). The condensed consolidated interim financial statements do not include all of the information required for full annual financial statements and should be read in conjunction with the Company's annual consolidated financial statements for the year ended December 31, 2016 issued on March 29, 2017, and which have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the IASB.

These condensed consolidated interim financial statements were approved by the Board of Directors of the Company and authorized for issuance on August 8, 2017.

These condensed consolidated interim financial statements follow the same accounting policies and methods of application as the consolidated financial statements as at and for the year ended December 31, 2016.

Future changes in accounting policies:

On July 24, 2014, the IASB issued the complete IFRS 9, Financial Instruments ("IFRS 9"). The effective date of IFRS 9 is for annual periods beginning on or after January 1, 2018 and it must be applied retrospectively with some exemptions. Early adoption is permitted. The restatement of prior periods is not required and is only permitted if information is available without the use of hindsight. IFRS 9 introduces new requirements for the classification and measurement of financial assets, changes to financial liabilities, amendments to the impairment model for "expected credit loss", and a new general hedge accounting standard, which aligns hedge accounting more closely with risk management. The Company is currently assessing the impact of IFRS 9 and intends to adopt the new standard on the required effective date, January 1, 2018. The Company expects to complete its assessment of the impact of adopting IFRS 9 during the second half of 2017, and the extent of the impact of adoption has not yet been determined.

On May 28, 2014, the IASB issued IFRS 15, Revenue from Contracts With Customers ("IFRS 15"). The new standard is effective for annual periods beginning on or after January 1, 2018. Earlier application is permitted. IFRS 15 will replace IAS 11, Construction Contracts, IAS 18, Revenue, International Financial Reporting Interpretations Committee ("IFRIC") 13, Customer Loyalty Programs, IFRIC 15, Agreements for the Construction of Real Estate, IFRIC 18, Transfer of Assets from Customers, and Standing Interpretation Committee 31, Revenue - Barter Transactions Involving Advertising Services. The standard contains a single model that applies to contracts with customers and two approaches to recognizing revenue: at a point in time or over time. The model features a contract-based five-step analysis of transactions to determine whether, how much and when revenue is recognized. New estimates and judgmental thresholds have been introduced, which may affect the amount and/or timing of revenue recognized. The new standard applies to contracts with customers. It does not apply to insurance contracts, financial instruments or lease contracts, which fall in the scope of other IFRS. The Company is currently assessing the impact of IFRS 9 and intends to adopt the new standard on the required effective date, January 1, 2018. The Company expects to complete its assessment of the impact of adopting IFRS 9 during the second half of 2017, and the extent of the impact of adoption has not yet been determined.

2. Loans receivable:

The Company has issued mezzanine loans to entities which are wholly owned subsidiaries of Mainstreet Property Group, LLC ("Mainstreet LLC"), which is majority owned by the chairman of the Company and is a related party (see note 16). The loans have been issued for the development of seniors housing and care properties in the United States. The mezzanine loans provide for annual interest, of which a portion is payable at a current pay rate on a monthly basis ("Current Interest"), with the remaining portion of interest accruing until the earlier of the loan's maturity or prepayment ("PIK Interest"). The mezzanine loans provide the Company with the right to purchase the development upon its substantial completion at fair market value. The Company's interest in the mezzanine loans is secured behind the construction lender by a pledge of equity interests in the developments and, in some instances, a second mortgage position in the real estate. The mezzanine loans are guaranteed by Mainstreet LLC.

On December 22, 2016, a subsidiary of the Company entered into an interest only loan agreement with MS Investment with a capacity of $5,000 to be used by MS Investment for development costs, operating capital expenditures or other costs, of which $2,500 of the loan was advanced to MS Investment on December 22, 2016, and an additional $2,500 was advanced on January 6, 2017.

A subsidiary of the Company has entered into a credit agreement with Autumnwood Lifestyles Inc., ("Autumnwood") with a capacity of CDN$1,500. The credit agreement is to be used for capital expenditures, property level principal and interest expense and other debt service obligations in respect of Autumnwood's interest in four properties located in Ontario, Canada, and of which the Company and Autumnwood are partners in joint arrangements.

4. Investment properties:

(a) Investment properties:

	Number of Properties		Amount
January 1, 2016	10	$	268,425

At June 30, 2017, the Company used an internal valuation process to value the investment properties. Third party appraisers are engaged to prepare valuations on a portion of the portfolio annually such that one third of the portfolio is valued externally each year, and every property in the portfolio is valued externally at least once every five years.

Acquired investment properties are initially measured at cost, including directly attributable acquisition costs, when the transactions are deemed to be asset acquisitions. Subsequent to initial recognition, investment properties are measured at fair value, determined based on available market evidence. The Company uses alternative valuation methods such as the direct capitalized income approach, discounted cash flow projections (Level 3 inputs) or recent transaction prices. The fair value of investment properties reflects rental income from current leases and assumptions about rental income from future leases in light of current market conditions.

The significant unobservable assumptions used in determining fair value of investment properties measured using the capitalized income approach with total value of $571,722 as at June 30, 2017 (December 31, 2016 - $589,835) are set out in the following table:

	June 30, 2017	December 31, 2016
Capitalization rate - range	6.50% - 8.25%	6.50% - 8.25%
Capitalization rate - weighted average	7.86%	7.81%

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

The fair value of investment properties measured using the capitalized income approach is most sensitive to changes in capitalization rates. At June 30, 2017, a 25 basis point increase or decrease in the weighted average capitalization rate would decrease the fair value of the investment properties by $17,681 (December 31, 2016 - $19,306) or increase the fair value of the investment properties by $18,851 (December 31, 2016 - $20,567), respectively.

On May 10, 2017, a wholly owned subsidiary of the Company acquired three properties (the "Ensign Properties") for a combined purchase price of $38,000 plus transaction costs. One property is located in Glendale, Arizona and provides long term and transitional care services. The other two properties are located in Rosemead, California and primarily provide combined assisted living and transitional care services. Each property is leased to a subsidiary of The Ensign Group, Inc. under a triple net master lease. The Company entered into new mortgage secured by all three Ensign Properties to fund $30,000 of the purchase price. The debt bears interest at a variable rate of LIBOR plus 350 basis points through its maturity date of June 1, 2022. The Company funded the remainder of the purchase with cash on hand and $6,000 in proceeds from the Secured Revolving Facility (note 6).

5. Joint arrangements:

As at June 30, 2017, the following are the Company's joint arrangements:

Joint arrangement	Number of properties	Location	Company ownership	Consolidation type
Mainstreet-Autumnwood Landlord (1)	4	Canada	50%	Joint operation
Mainstreet-Autumnwood Operator (2)	4	Canada	50%	Joint venture

(1) The Company directly holds its interest in the real estate joint operation.
(2) These joint venture arrangements have been structured through separate legal entities and lease the properties from the joint operation landlord.

The Company and Autumnwood (referred to as the "landlords") each owns a 50% direct beneficial interest in the real estate assets and are jointly obligated for the related mortgages for a portfolio of four properties, which under IFRS 11, Joint Arrangements ("IFRS 11"), are accounted for as joint operations.

The Company’s 50% interest in the operations of these properties is held through separate legal entities (collectively referred to as "Mainstreet-Autumnwood Operators"), which under IFRS 11 are accounted for as joint ventures using the equity method.

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Mainstreet-Autumnwood Operators have leased the real estate from the landlords under their respective lease agreements. These leases are for three-year periods, with six automatic renewals every third anniversary for a total of 21 years. For the three and six months ended June 30, 2017, $697 and $1,404, respectively (three and six months ended June 30, 2016 - NIL), the Company's share of the landlords' lease receipts, is reported as lease revenue from joint ventures. Mainstreet-Autumnwood Operators lease expense is included in the share of net income (loss) from joint ventures in the consolidated statements of comprehensive income.

The following tables summarize the information about the Company's investment in joint ventures, which have been accounted for under the equity method:

Except as disclosed elsewhere in these condensed consolidated interim financial statements, the related party balances are included in accounts payable and receivable and in lease revenue from joint ventures. As of June 30, 2017, $113 (2016 - $185) of the Company's accounts receivable relate to its investment in joint ventures.

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

6. Credit facilities:

The credit facilities are recorded net of loan fees, which are capitalized when paid, and amortized into finance cost over the terms of the related loans using the effective interest rate method.

On February 24, 2017, a wholly owned subsidiary of the Company entered into a secured revolving credit facility ("Secured Revolving Facility") for the purpose of financing property acquisitions. The Secured Revolving Facility has a maximum capacity of $25,000 and matures on February 24, 2018. Interest on the Secured Revolving Facility is variable in nature and is dependent on the security provided to the lender. The Secured Revolving Facility provides the ability to draw funds as a first priority mortgage up to 55% of the value of the collateral property, and a second priority mortgage up to 95% of the value of the collateral property. On May 10, 2017, the Company borrowed $6,000 on the Secured Revolving Facility in connection with the purchase of the Ensign Properties.

On June 6, 2017 the Company amended the terms of its credit facility (the "Facility") agreement to extend the maturity date of the term loan from October 30, 2019 to June 6, 2022 and extend the the maturity date of the revolving line of credit from October 31, 2018 to June 6, 2021 with an additional one year extension option (the "Facility Recast"). The Facility was also amended to increase the total Facility capacity from $285,000 to $300,000. The term loan capacity remained consistent at $200,000 while the revolving line of credit capacity increased from $85,000 to $100,000. The amended agreement includes an accordion feature that would extend the capacity of the total revolving line of credit, the total term commitment or both, bringing the total capacity of the Facility to $500,000. As at June 30, 2017, the Facility is secured by 23 properties located in the United States. As at June 30, 2017, the security provided the Company with a borrowing base of $227,145, which represents the maximum amount that can be drawn. The Facility provides for interest-only payments during the term and a borrowing rate of LIBOR plus 275 basis points when the Company's leverage is less than 50%, LIBOR plus 300 basis points when the Company's leverage is greater than or equal to 50% but less than 55%, and LIBOR plus 325 basis points when the Company's leverage is greater than or equal to 55%. Per the agreement, the Company's leverage cannot exceed 60%.

As at June 30, 2017 the Company did not meet certain minimum liquidity and maximum indebtedness requirements under the terms of its credit facilities agreements. The agreements have since been amended to remove the minimum liquidity requirement for the compliance test date of June 30, 2017 and to modify the maximum indebtedness requirements in a manner which results in the Company meeting the modified requirements for the compliance test date of June 30, 2017. As the Company did not have an unconditional right to defer settlement of the credit facilities for at least twelve months as at June 30, 2017, amounts outstanding under the credit facilities have been classified as current liabilities in the condensed consolidated interim statement of financial position as at June 30, 2017.

At June 30, 2017, total borrowings outstanding under the Facility were $227,145, and the borrowing rate was 4.48%. At June 30, 2017, total borrowings outstanding under the Secured Revolving Facility were $6,000 and the borrowing rate was 6.62%.
