

# **INVESQUE INC.**

## **MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2023**

**November 9, 2023**

## **Basis of presentation**

Financial data in this Management's Discussion and Analysis of Results of Operations and Financial Condition (this "MD&A") is for the three and nine months ended September 30, 2023. Financial data has been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board.

This MD&A is intended to provide readers with an assessment of the performance of Invesque Inc. (the "Company") for the three and nine months ended September 30, 2023. This MD&A should be read in conjunction with the audited consolidated financial statements and accompanying notes of the Company for the years ended December 31, 2022 and 2021.

Additional information relating to the Company, including the Company's annual information form for the year ended December 31, 2022 (the "2022 AIF"), can be found on SEDAR at [www.sedar.com](http://www.sedar.com).

All financial information is in thousands of U.S. dollars, except share and per share amounts, unless otherwise noted.

## **Forward-looking disclaimer**

This MD&A contains certain forward-looking information and/or statements ("forward-looking statements"), that reflect and are provided for the purpose of presenting information about management's current expectations and plans relating to the future, including, without limitation, statements regarding the impact of COVID-19 on the business, operations and financial performance of the Company, the expected seniors housing and care industry and demographic trends, acquisitions, dispositions, development activities, future maintenance and leasing expenditures, financing, the availability of financing sources and income taxes. Forward-looking information is typically identified by terms such as "anticipate," "believe," "continue," "estimate," "expect," "expectations," "intend," "may," "plan," "project," "should," "will," and other similar expressions that do not relate solely to historical matters and suggest future outcomes or events. Readers should not place undue reliance on forward-looking statements and are cautioned that forward-looking statements may not be appropriate for other purposes. Forward-looking statements in this MD&A are based on current beliefs, expectations, and certain assumptions of the Company's management, including without limitation that any conditions relating to the sale of the Company's medical office buildings will be satisfied or waived and any such transactions will be completed when currently expected, that the Company will not be able to refinance or extend the maturity on its existing debt facility or be permitted or able to make payments in connection with the partial redemption currently scheduled to occur on September 30, 2023 of the Company's 8.75% convertible debentures due on September 30, 2026, that the Company's lender will agree to a waiver or an amendment to the definition of net worth in the current credit agreement for future reporting periods and are subject to significant known and unknown risks, uncertainties, and other factors that are beyond the Company's ability to predict or control and may cause actual results or events to differ materially from those expressed or implied by such statements and, accordingly, should not be read as guarantees of future performance or results and will not necessarily be accurate indications of whether or not such results will be achieved. The Company's actual results may differ as a result of various factors, including without limitation, the negative impact of COVID-19 pandemic on the Company's business and the business of operators/tenants, including without limitation, the negative economic conditions arising therefrom; the status of capital markets, including, without limitation, availability and cost of capital; issues facing the healthcare industry, including, without limitation, compliance with, and changes to, regulations and payment policies, responding to government investigations and settlements and operators'/tenants' ability to cost effectively obtaining and maintaining adequate liability and other insurance; the risk that the Company's operators/tenants and borrowers may become subject to bankruptcy or insolvency proceedings; changes in financing terms; competition throughout the healthcare and seniors housing industries; the operating results or financial condition of operators/tenants, including, without limitation, their ability to pay rent and repay loans, the Company's ability to transition, buy, or sell properties with profitable results as and when anticipated, and occupancy levels; the effect of other factors affecting the Company's business and facilities outside of the Company's or operators'/tenants control, including without limitation, natural disasters, other health crises or pandemics, governmental action, particularly in the healthcare industry, protests, strikes, and shortages in supply chains; and those factors set forth under the heading "Risks and Uncertainties" in this MD&A and the 2022 AIF, as well as the risks described in the Company's current annual information form and other documents, available on SEDAR at [www.sedar.com](http://www.sedar.com), which risks may be dependent on market factors and not entirely within the Company's control. Although management believes that it has a reasonable basis for the expectations reflected in these forward-looking statements, actual results may differ from those suggested by the forward-looking statements for various reasons.

These forward-looking statements reflect current expectations of the Company and are made as of November 9, 2023, being the date of this MD&A. The Company does not undertake any obligation to publicly update or revise any forward-looking statements except as may be required by applicable law.

## Financial Measures not Defined Under IFRS

In this document we use a number of performance measures that are not defined by IFRS which follow the disclosure requirements established by National Instrument 52-112 Non-GAAP and Other Financial Measures Disclosures, to measure, compare and explain the operating results and financial performance of the Company (collectively, the “non-IFRS Financial Measures”).

Certain non-IFRS Financial Measures such as Funds From Operations ("FFO"), Adjusted Funds From Operations ("AFFO"), and revenue per resident and related per share amounts are used by the Company to measure, compare and explain the operating results and financial performance of the Company. Such performance measures do not have standardized meanings under IFRS and therefore may not be comparable to similar measures presented by other issuers. Such performance measures should not be construed as alternatives to loss and comprehensive loss or cash flows from operating activities calculated in accordance with IFRS. Further, the supplemental measures used by management may not be comparable to similar measures presented by other real estate enterprises. Management believes that these terms are relevant measures in comparing the Company's performance to industry data and assessing its ability to meet its ongoing obligations. Please refer to the "Financial Measures" section of this MD&A for a more detailed description of FFO and AFFO and a reconciliation to IFRS measures.

## Business Overview

Invesque Inc. is a corporation continued under the *Business Corporations Act* (British Columbia). The registered office of the Company is located at 700 W Georgia Street, 25th Floor, Vancouver, British Columbia V7Y 1B3 and the head office of the Company is located at 333 Bay Street, Suite 3400, Toronto, Ontario, M5H 2S7.

The Company is a North American healthcare real estate company with an investment thesis focused on the premise that an aging demographic in North America will continue to utilize healthcare services in growing proportion to the overall economy. The Company currently capitalizes on this opportunity by investing in a portfolio of income generating properties with a focus on seniors housing. The Company's portfolio includes investments in independent living, assisted living, memory care, skilled nursing and medical office properties. The Company's skilled nursing facilities and a portion of its assisted living and memory care portfolios are operated under long-term leases and joint venture arrangements with industry leading operating partners. The Company's portfolio also includes investments in owner occupied seniors housing properties in which it owns the real estate and operations. The majority of the operations are managed through its subsidiary management company ("Commonwealth"). The Company made a strategic decision to exit the medical office building segment in 2022 and therefore reports results of this segment as discontinued operations in the Company's consolidated financial statements.

Description of the Company's asset types are as follows:

- **Independent Living ("IL") Communities:** IL communities are the least medically-intensive type of seniors housing and care properties. Unlike AL (defined below) communities and SNFs/LTCs (defined below), IL communities generally do not offer nursing, rehabilitative care or therapy services and typically do not provide assistance with daily living activities. Rather, IL communities are designed as a seniors housing and care option for those who are able to perform their own basic activities of daily living and need little or no medical assistance. IL communities come in many forms ranging from age-restricted apartment communities to villa homes which are on a retirement village campus or part of a continuing care retirement community. IL communities in North America are generally unregulated and unlicensed, with some exceptions for IL communities providing more extensive care services. Most IL communities receive revenue through private pay sources, such as residents paying directly out of pocket and private insurance, rather than government sources.
- **Assisted Living ("AL") and Memory Care ("MC") Communities:** AL and MC communities play a key role in the continuum of seniors housing and care, as they bridge the gap between IL communities and SNFs/LTCs (defined below). AL communities provide relatively independent elderly persons with typical amenities associated with less medically-intensive seniors housing and care as well as assistance with activities of daily living and some healthcare services. Services provided at AL communities typically include 24-hour care for resident protection, an emergency response system, supervision for persons with disabilities, housekeeping, maintenance and transportation. MC communities are substantially similar to AL communities because they also focus on elderly persons who need assistance with activities of daily living and healthcare services but differ from AL communities because MC residents need to be cared for in a secured environment to prevent seniors from leaving the community in a confused state. AL and MC communities in the United States are typically licensed and

regulated by state and local governments rather than the federal government. In Canada, AL communities are licensed or certified and regulated in most jurisdictions but are typically less regulated than LTCs (defined below). Licensure for MC communities is generally identical to AL licensure except for specific building requirements including locked exterior doors secured by keys or an access code. AL communities receive most of their revenues through private pay sources and may also receive revenue from third-party pay sources, including federal, state and provincial governments.

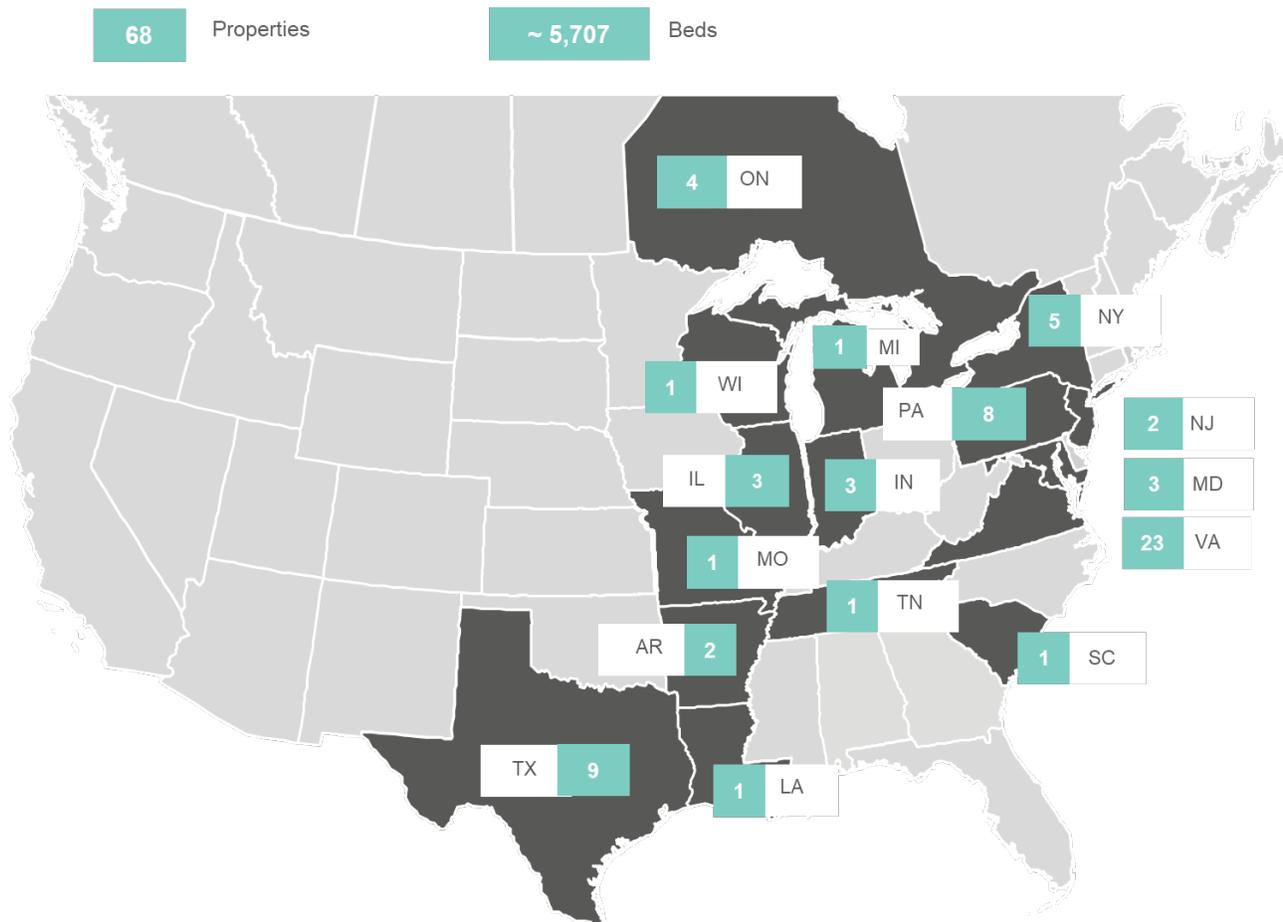

- **Skilled Nursing Facilities ("SNFs"):** SNFs are senior care facilities that provide a room, meals and assistance with daily life activities and have licensed nursing staff on duty 24 hours per day. These facilities provide the most intensive level of medical and nursing care in a residential setting for seniors, typically treating residents with physical or mental impairments that prevent them from living in IL or AL communities. In many cases, these facilities supplement hospital care by providing care to patients who require medical and therapeutic services but are stable enough to have these services provided in a facility that is less expensive than a hospital or other post-acute care setting. The SNF segment includes services to patients requiring medical and/or nursing care and rehabilitation services for post-operative procedures including hip or knee replacements and cardiac surgeries, among others. SNFs also provide transitional care services, and facilities that specialize in this type of care are often referred to as Transitional Care Centers ("TCCs"). TCCs are designed for patients transitioning from the hospital to their home after a surgery or an acute health episode. TCCs, a sub-segment of SNFs, are the most common destination for post-acute care patients requiring short-term, physician-ordered intense rehabilitation for post-operative procedures. They are staffed by registered nurses, therapists, pharmacists and social workers. SNFs are subject to extensive federal, state and provincial regulation, including licensing requirements and regulations relating to government funding. SNFs receive revenue from private pay sources and third-party pay sources, including federal, state and provincial governments and insurance companies.
- **Medical Office Buildings ("MOBs"):** MOBs represent a segment of healthcare real estate comprised of various outpatient healthcare settings. Outpatient care, sometimes referred to as ambulatory care, is defined as medical care or treatment that does not require an overnight stay in a hospital or medical facility. Unlike seniors housing and care properties, the utilization of outpatient care settings and MOBs is generally not age-restricted and is available to all segments of the population. In the United States, MOBs can house service providers that provide a wide variety of healthcare services, ranging from family medicine and geriatric care to plastic surgery, and those providers can each accept a wide variety of reimbursements for services, including private pay, Medicare, Medicaid and insurance and managed care plans. A strategic decision has been made to exit the medical office building segment, and the sale of the remaining two buildings is expected to be completed in the upcoming months. Accordingly, this segment has been classified as discontinued operations in the condensed consolidated interim financial statements dated September 30, 2023.

Throughout 2022, the Company sold 12 medical office buildings. On April 7, 2023, the Company sold a medical office building in Orlando, Florida. Subsequent to these transactions, the Company owns two medical office buildings in the United States and intends to sell them in the next twelve months. The medical office building segment has been classified as discontinued operations for a period greater than one year from the date of classification, however the Company remains committed to selling the buildings. The Company has sold 12 of the original 14 buildings and multiple buyers have approached the Company with offers on the remaining two buildings. Due to circumstances beyond the Company's control, such as the inability to obtain financings and the economic environment within the medical office building industry, no deals have closed on the remaining two buildings to date. The Company remains steadfast in commitment to sell the assets at a reasonable fair market value, which is reflected in change in fair value of investment properties.

For the Company's SNF properties, it generally owns the land and buildings and leases them to third party operators on a long-term, triple-net lease basis. For its IL and AL properties, it either owns the land and buildings and leases them to third party operators on a long-term, triple-net basis, has an interest in both the property and operations in joint ventures and joint arrangements with the operating partner at the facility, or wholly owns and operates the property. For the triple-net lease structured assets, the tenant operators assume the operational risks and expenses associated with operating a seniors housing and care facility on the leased premises. The tenant operators provide and manage the service offerings available at the facilities, deliver all care services, and maintain the buildings. For wholly-owned or partially-owned and occupied properties, the Company owns the real estate and provides management services and assumes all or a portion of operating risk within the buildings.

As of November 9, 2023, the Company owns or has a majority interest in a portfolio of 68 properties in the United States, comprised of 53 assisted living and memory care facilities, 9 skilled nursing facilities and 2 medical office buildings. In Canada, the Company owns an interest in 4 seniors housing assets.

The Company's geographic footprint as of November 9, 2023:

Management believes that certain characteristics of the North American seniors housing and care industry, including favorable demographic trends, increasing demand with stagnant supply of new facilities and the shift from high cost hospitals for post-acute care to lower cost settings such as skilled nursing facilities, provide for a unique investment opportunity. Management also believes that, as a result of the high quality of the Company's properties, its triple-net lease and joint venture structures and its relationships with reputable operators, including Commonwealth and industry participants, the Company is well-positioned to succeed in the industry by capitalizing on these market opportunities.

### Liquidity Assessment and COVID-19 Risk

The COVID-19 pandemic resulted in a significant economic downturn in the United States, Canada and globally, and also led to disruptions and volatility in capital markets. Certain trends and impacts have continued throughout 2023. The economic downturn has had an impact on results and operations of the Company, including decreased occupancy, delays in collections from tenants, increased operating expenses and increased interest rates.

The negative impacts of the pandemic have been partially offset to date by certain government stimulus programs which have helped to offset increased expenses and compensate for lost revenues, but the Company is not able to provide assurance that such programs may continue to be available in the future. For the three and nine months ended September 30, 2023, the Company recognized \$nil and \$34, respectively, of other income related to government grants funded through programs designed to assist seniors housing operators who have experienced both lost revenue and increased expenses during the COVID-19 pandemic (three and nine months ended September 30, 2022 - \$393 and \$584, respectively). For the three and nine months ended September 30, 2023, the Company recognized \$0 and \$1,742, respectively, of income from joint ventures related to the Company's share of government grants recognized by certain of

the Company's joint venture properties in respect of COVID-19 pandemic relief (three and nine months ended September 30, 2022 - \$— and \$289, respectively).

Liquidity risk is the risk that an entity is unable to fund its assets or meet its obligations as they come due. Liquidity risk is managed in part through cash forecasting. While there are uncertainties in assessing future liquidity requirements under normal operating conditions, the stressed conditions caused by COVID-19, interest rates and cost inflation have introduced increased uncertainty. The Company monitors forecasts of liquidity requirements to ensure it has the ability to meet operational needs by maintaining sufficient availability of the combination of cash and debt capacity, and to ensure the Company will meet its financial covenants related to various debt agreements. Such forecasting involves a significant degree of judgment which takes into consideration current and projected macroeconomic conditions, the Company's cash collection efforts, debt financing and refinancing plans, and covenant compliance required under the terms of various debt agreements. There is a risk that such liquidity forecasts may not be achieved and that currently available debt financing that matures in the next 12 months may no longer be available to the Company at terms and conditions that are forecasted, or at all.

The Company believes that it has sufficient available liquidity to meet its minimum obligations as they come due and to comply with financial covenants required under its credit facilities for a period of at least 12 months from September 30, 2023. Further, the Company has assessed that there are no material uncertainties related to events or conditions that may cast significant doubt upon the Company's ability to continue as a going concern. In making this significant judgment, the Company has prepared a cash flow forecast with the most significant assumptions in the preparation of such forecast being the ability of its tenants to meet projected rental obligations to the Company and the continued availability of financing.

In response to a downside scenario, the Company has the ability to take the following mitigating actions to reduce costs, optimize the Company's cash flows and preserve liquidity:

- (i) utilize available cash to pay down debts in excess of the cash sweep requirements,
- (ii) continue with sales activity to dispose of certain properties and use the net proceeds to pay down and reduce debts,
- (ii) exercise the Company's right to convert its convertible debentures into common shares,
- (iii) reduce non-essential capital expenditures, and
- (iv) continue to extend or refinance debt with near-term maturities.

#### *Credit Facility Requirements*

On November 8, 2023, the Company executed an amended credit agreement replacing the existing credit facility and revolver with the same lending syndicate, which resulted in the maturity date being extended to March 31, 2025. Material terms of the new credit agreement are as follows:

- (i) The interest rate on the new credit facility is initially SOFR + 250 basis points and will increase to SOFR + 280 basis points during the term.
- (ii) The Company is prohibited from repaying subordinated debt or making common distributions.
- (iii) The Company is permitted to make all required interest payments on both senior and subordinated debt.
- (iv) The new credit agreement has a declining maximum commitment balance. In addition to a \$15,000 revolving commitment, the term commitment must be reduced over the term of the loan. However, missing a required curtailment does not result in an event of default. Maximum term commitment amounts are as follows:
  - (1) \$125,000 by March 31, 2024
  - (2) \$115,000 by June 30, 2024
  - (3) \$110,000 by September 30, 2024
  - (4) \$105,000 by December 31, 2024, and
  - (5) \$20,000 by March 31, 2025.

(v) The new credit agreement requires the Company to maintain a debt service coverage ratio of 1.45, which can be reduced to 1.35 upon achieving specific targets.

(vi) The new credit agreement requires the Company to maintain a consolidated leverage ratio not to exceed 62.5% through March 31, 2024, which will be reduced to 60.0% for the quarter ending June 30, 2024, and as of each quarter end thereafter.

The Company believes it will be able to satisfy all conditions of the new credit facility over its term to maturity, which is contingent on executing the following:

(i) Selling certain properties, at their estimated fair value, and using the net sale proceeds to meet the loan paydown requirements.

(ii) Refinancing certain properties, at a reasonable loan-to-value based on the underlying value of the property, and using the net refinancing proceeds to meet the loan paydown requirements.

(iii) Entering into fixed interest rate swaps, at market terms, in order to reduce the exposure to variable interest rate fluctuations and manage debt service costs to meet the debt service coverage ratio requirements.

#### *Working Capital Requirements and Near-Term Debt Maturities*

The Company expects to meet its working capital requirements with respect to accounts payable and accrued liabilities through cash on hand and operating cash flows. As at September 30, 2023, current liabilities totaled \$451,176, and current assets totaled \$86,366, resulting in a working capital deficit of \$364,810 (December 31, 2022 - \$483,134, \$81,764 and \$401,370, respectively). The Company expects to be able to meet all of its obligations as they become due utilizing some or all of the following sources of liquidity: (i) cash on hand at period end of \$4,772 in excess of lender requirements of \$15,000, (ii) cash flows generated from operations, (iii) property-specific mortgages and refinancings and (iv) strategic sale of assets. The Company also has the ability to raise additional liquidity through issuance of common shares, subject to market conditions, and alternative financing sources. With respect to near term debt maturities, the Company believes it will be successful in either refinancing each of the near term debt instruments or settling the debt instruments through sales of the underlying assets securing such debts.

#### **Recent Activities**

On April 7, 2023, the Company sold a medical office building in Orlando, Florida for cash consideration of \$6,375 before closing costs, of which \$4,851 was used to pay down mortgage debt.

On April 10, 2023, the Company acquired ownership of the memory care facility as part of a deed in lieu of foreclosure agreement with the debtor or borrower under the note. The Company's assumption of ownership of the facility was exchanged for forgiveness of the note receivable. In conjunction with the acquisition of the property, the Company, as landlord, entered into a triple-net lease with a third party affiliate of Constant Care Management Company ("Constant Care"). On August 7, 2023, the Company entered into a joint venture arrangement with Constant Care as operator of the property. Constant Care operates the property pursuant to a management agreement. The Company sold 20% of its interest in the limited partnership that owns the property to Constant Care for \$210, satisfied through a cash payment.

On June 1, 2023, the Company sold seven properties in Illinois for total consideration of \$101,317. Cash in excess of closing costs was used to partially pay down the Company's corporate credit facility. On July 1, 2023, the Company sold a skilled nursing facility in Chicago, Illinois for \$19,683. Cash in excess of closing costs was used to partially pay down the Company's corporate credit facility.

On October 5, 2023, the Company paid down \$4,828 of the 2018 Convertible Debentures per the amendments approved on September 26, 2023.

On November 1, 2023, the Company sold 2 properties in Georgia and 2 properties in South Carolina for a total sale price of \$25,097 before closing costs. Proceeds were used to pay down the mortgage affiliated with the properties.

On November 8, 2023, the Company executed an amended credit agreement for the corporate credit facility, extending the maturity date to March 31, 2025 and amending various terms including interest rates, debt service coverage ratio, and restrictions on subordinated debt and other payments, among others.

(1) The weighted average lease term to maturity does not include the medical office building portfolio accounted for as a discontinued operation. In addition, it does not include owner occupied properties due to the variety and nature of existing leases within the portfolio.

(2) The Company's weighted average interest rates at September 30, 2023, December 31, 2022 and September 30, 2022 included \$258,818; \$470,963 and \$485,513, respectively, of the Company's debt that is fixed with interest rate swaps. As of September 30, 2023, the weighted average term to maturity for the Company's fixed debt with interest rate swaps is 1.21 years while the term to maturity of the fixed rate swaps is 0.87 years.

(3) This total represents the Company's share based on percentage of ownership.

(4) The Company's joint venture weighted average interest rate at September 30, 2023, December 31, 2022 and September 30, 2022 included \$76,687; \$87,264 and \$87,759, respectively, of the joint ventures debt that is fixed with interest rate swaps. As of September 30, 2023, the weighted average term to maturity for the Company's joint venture fixed debt with interest rate swaps is 2.46 years while the term to maturity of the fixed rate swap is 0.46 years.

(5) Represents amounts from continuing operations, and excludes activity from the medical office building segment, which has been classified as discontinued operations.

(6) FFO and AFFO, and related per share amounts, are financial measures not defined under IFRS. Please refer to the "Financial Measures not Defined Under IFRS" section of this MD&A.

**Results of Operations - Three and Nine Months Ended September 30, 2023 and 2022**

(unless otherwise stated, amounts are in thousands of U.S. dollars)

**Revenue from continuing operations**

	Three months ended September 30,		Nine months ended September 30,	
	2023	2022	2023	2022
Contractual rental revenue	\$ 6,286	\$ 10,793	\$ 25,473	\$ 32,699
Straight-line rent adjustments	789	946	2,375	3,050
Amortization of tenant inducements	(61)	(61)	(183)	(182)
Amortization of leasing commission	(5)	(4)	(15)	(14)
Property tax recoveries	1,473	2,827	7,872	8,591
Total rental revenue	8,482	14,501	35,522	44,144
Resident rental and related services revenue	36,312	33,482	105,383	98,805
Lease revenue from joint ventures	883	876	2,641	2,676
Other revenue	1,064	806	2,993	2,366
Total revenue	\$ 46,741	\$ 49,665	\$ 146,539	\$ 147,991

Contractual rentals received and straight-line rent adjustments relate to lease agreements under which the Company leases its investment properties to its tenants. Property tax recoveries represent the revenue recognized for the real estate taxes for which the property tenants are primarily responsible to pay. The decrease in contractual rental revenue for the three and nine months ended September 30, 2023 as compared to the prior period is primarily due to the sale of investment properties.

Resident rental and related revenue relates to operating revenue at the wholly owned properties that are managed by Commonwealth and Phoenix, where the Company owns the operations as well as the real estate. This revenue consists of rental revenue and service revenue paid by residents in the Company's owner occupied properties. The increase in resident rental and related revenue over the three and nine months ended September 30, 2023 as compared to the prior periods is due to increased occupancy rates and rental rate increases.

Lease revenue from joint ventures represents revenue earned under lease arrangements with four operating entities, which are jointly owned by the Company.

Other revenue includes management fee income earned from communities managed by Commonwealth but that are not owned by the Company. Commonwealth currently manages nine properties that are not owned by the Company.

**Other income from continuing operations**

Other income for the three and nine months ended September 30, 2023 relates to income recognized upon a lease transition of \$nil and \$1,711, respectively, and government grant funding received related to COVID-19 relief of \$nil and \$34, respectively (three and nine months ended September 30, 2022 - \$393 and \$584, respectively).

### ***Direct property operating expenses from continuing operations***

Direct property operating expenses consist of the following:

	Three months ended September 30,		Nine months ended September 30,	
	2023	2022	2023	2022
Repairs and maintenance	\$ 688	\$ 675	\$ 2,130	\$ 2,153
Utilities	1,000	984	3,069	3,080
Compensation and benefits	18,549	16,882	53,000	49,008
Other services and supplies	2,140	1,863	6,166	5,337
Administrative and marketing	2,629	2,311	7,593	7,063
Real estate taxes	588	563	1,746	1,820
Insurance	768	735	2,237	2,319
Other	1,180	1,468	3,703	5,415
	<u>\$ 27,542</u>	<u>\$ 25,481</u>	<u>\$ 79,644</u>	<u>\$ 76,195</u>

The direct property operating expenses relate to expenses at the Company's owner occupied properties. As of September 30, 2023, the owner occupied properties include 28 properties operated by Commonwealth and five properties operated by Phoenix. The increase in direct property operating expenses for the three and nine months ended September 30, 2023 as compared to prior year periods is primarily due to increases in compensation and benefits due to increased staffing for increased occupancy, as well as increased market labor rates.

### ***Depreciation and amortization expense from continuing operations***

For the three and nine months ended September 30, 2023, depreciation and amortization expense was \$3,854 and \$11,332, respectively, (three and nine months ended September 30, 2022 - \$3,873 and \$11,397, respectively), which relates to the straight-line depreciation over the useful life of the Company's property, plant and equipment relating to the owner occupied properties. The Company amortizes the value of in place leases over the estimated lease up term in the corresponding property. The decrease in depreciation and amortization expense for the three and nine months ended September 30, 2023 as compared to the prior year periods is primarily due to the disposition of one property, a conversion of another facility that is now classified as an investment property held within a joint venture, which is not amortized, and de-recognition of assets across the portfolio due to dispositions, partially offset by increased depreciation resulting from capital additions.

### ***Net finance costs from continuing operations***

Net finance costs from operations consist of the following:

	Three months ended September 30,		Nine months ended September 30,	
	2023	2022	2023	2022
Interest expense on credit facilities	\$ 7,111	\$ 6,064	\$ 24,585	\$ 13,311
Interest expense on mortgages payable	3,097	1,840	7,696	5,141
Interest expense on convertible debentures	1,158	1,181	3,460	3,593
Dividends on Commonwealth preferred units	970	965	2,843	2,852
Amortization and accretion expense	5,550	1,024	7,608	3,036
Net interest rate swap payments (receipts)	(2,859)	(386)	(9,093)	3,059
Debt extinguishment costs	(4)	(10)	353	584
Amortization of mark-to-market debt adjustments	996	359	2,603	1,371
	<u>\$ 16,019</u>	<u>\$ 11,037</u>	<u>\$ 40,055</u>	<u>\$ 32,947</u>

Net finance costs are primarily related to interest and amortization on the Company's credit facilities and mortgages payable. Interest expense on credit facilities and mortgages payable increased in the three and nine months ended September 30, 2023 as compared to the prior year periods due to the increase in the Company's average borrowing rate. While the Company successfully lowered its overall debt portfolio in the current year periods, the offsetting increases in interest rates have resulted in higher total interest expense. These interest expense increases were partially offset by net interest swap receipts in the current year period due to the terms of the Company's swap arrangements. The Commonwealth preferred units were issued by the Company as partial consideration for the Commonwealth acquisitions in a prior period and earn an initial dividend rate of 6.50% per annum. Amortization and accretion expense increased in the three and nine months ended September 30, 2023 as compared to the prior year periods due to the accretion of the 2018 Convertible Debentures equity components as determined in a prior period. Amortization of mark-to-market debt adjustments increased in the three and nine months ended September 30, 2023 as compared to the prior year periods due to fair market adjustments to the 2018 Convertible Debentures resulting from the amended terms in May 2023 and September 2023.

***Interest income from loans receivable from continuing operations***

For the three and nine months ended September 30, 2023, interest income from loans receivable was \$587 and \$1,647, respectively (three and nine months ended September 30, 2022 - \$378 and \$1,097, respectively). Interest income is related to loans issued to operating partners and other third party entities for purposes of the development of seniors housing and care properties, operating capital expenditures or other costs. The increase in interest income for the three and nine months ended September 30, 2023 as compared to the prior year periods is primarily due to the issuance of additional loans.

***Real estate tax expense & change in fair value of investment properties - IFRIC 21 from continuing operations***

For the three and nine months ended September 30, 2023, real estate tax expense was \$50 and \$10,136, respectively, (three and nine months ended September 30, 2022 - \$0 and \$11,417, respectively), which represents property tax expense for the period for properties owned on the tax assessment date (generally January 1), in accordance with the provisions of *IFRIC 21, Levies*. Real estate taxes are recovered from the Company's tenants under the provisions of their triple-net leases and reflected as part of revenue. The change in real estate tax expense as compared to the prior year period is primarily due to the true up of real estate tax recoveries resulting from the sales of investment properties. Real estate tax expense on the Company's owner occupied properties is included in direct property operating expenses in the consolidated statements of loss and comprehensive loss.

The following table presents real estate tax expense and change in fair value of investment properties - IFRIC 21 together with property tax recoveries to show the net effect of real estate taxes on the Company's consolidated statements of loss and comprehensive loss for the periods presented.

	Three months ended September 30,		Nine months ended September 30,	
	2023	2022	2023	2022
Property tax recoveries	\$ 1,473	\$ 2,827	\$ 7,872	\$ 8,591
Real estate tax expense	(50)	—	(10,136)	(11,417)
Change in fair value of investment properties - IFRIC 21	(1,423)	(2,827)	2,264	2,824
	\$ —	\$ —	\$ —	\$ (2)

### **General and administrative expenses from continuing operations**

General and administrative expenses consist of the following:

	Three months ended September 30, 2023			Three months ended September 30, 2022		
	Corporate	CSL	Total	Corporate	CSL	Total
Compensation and benefits	\$ 1,066	\$ 2,086	\$ 3,152	\$ 1,478	\$ 1,667	\$ 3,145
Professional fees	401	(226)	175	792	—	792
Deferred share compensation	(191)	—	(191)	63	—	63
Rent	109	—	109	92	—	92
Other	627	274	901	351	236	587
	<u>\$ 2,012</u>	<u>\$ 2,134</u>	<u>\$ 4,146</u>	<u>\$ 2,776</u>	<u>\$ 1,903</u>	<u>\$ 4,679</u>

	Nine months ended September 30, 2023			Nine months ended September 30, 2022		
	Corporate	CSL	Total	Corporate	CSL	Total
Compensation and benefits	\$ 4,260	\$ 5,789	\$ 10,049	\$ 5,446	\$ 4,897	\$ 10,343
Professional fees	1,714	21	1,735	2,187	233	2,420
Deferred share compensation	143	—	143	376	—	376
Rent	323	—	323	244	—	244
Other	1,827	988	2,815	1,924	698	2,622
	<u>\$ 8,267</u>	<u>\$ 6,798</u>	<u>\$ 15,065</u>	<u>\$ 10,177</u>	<u>\$ 5,828</u>	<u>\$ 16,005</u>

Compensation and benefits expense includes the cost of salaries, bonuses, and benefits during the period. The increase in compensation and benefits for the three months ended September 30, 2023 as compared to the prior year period is primarily due to increases in cost of labor and an increase in headcount at Commonwealth, partially offset by a reduction in headcount at Corporate. The decrease in compensation and benefits for the nine months ended September 30, 2023 as compared to the prior year period is primarily due to a reduction in headcount at Corporate, partially offset by increased wages at Commonwealth.

Professional fees is comprised of costs incurred for external legal counsel, accounting fees and other professional services. The decrease in professional fees for the three and nine month periods ended September 30, 2023 as compared to the prior period is primarily due to downward adjustments to current year audit and tax preparation fees and reconciliations to prior year period audit and tax preparation fees.

The decrease in deferred share compensation expense for the three and nine months ended September 30, 2023 as compared to the prior year periods is primarily due to no additional employee grants being made, previous employee grants becoming fully amortized and a declining share price.

Other general and administrative expense primarily includes cost of insurance, fees earned by directors of the Company, travel and entertainment expense, franchise and licensure taxes, investor relations, marketing, foreign exchange loss (gain), and administrative expenses at Commonwealth management company ("CSL").

### **Allowance for expected credit losses from continuing operations**

Allowance for credit losses on loans and interest receivable for the three and nine months ended September 30, 2023 was \$465 and \$14,635, respectively (three and nine months ended September 30, 2022 - \$6,752 and \$7,222, respectively). The increase in credit losses in the current year-to-date period is primarily due to the reserve against real estate taxes receivable as part of the sale arrangement involving the Symphony properties, in addition to recoveries in the prior year period of previously reserved accounts. The Company applies a three-stage approach to measure allowance for credit losses. Loss allowance is measured at an amount equal to 12 months of expected losses for performing loans (Stage 1) and at an amount equal to lifetime expected credit losses on performing loans that have seen a significant increase in credit risk since origination (Stage 2) and at an amount equal to lifetime expected credit losses for loans considered to be credit impaired

(Stage 3). Certain borrowers have experienced negative impacts to operations due in part to the COVID-19 pandemic, and the Company has accordingly ascribed a higher risk rating to these outstanding loans.

***Change in non-controlling interest liability***

The change in non-controlling interest liability was an expense of \$95 and \$231 for the three and nine months, ended September 30, 2023, respectively (nine months ended September 30, 2022 - \$72 and \$448, respectively). These costs are the result of the portion of net income or loss attributed to the non-controlling interest partners of five consolidated properties in the owner-occupied reportable segment and one investment property joint venture. The change in non-controlling interest liability during the three and nine months ended September 30, 2023 from the prior year period is primarily due to operating results at the properties and non-cash fair value adjustments.

***Change in fair value of investment properties from continuing operations***

The change in fair value of investment properties for the three and nine months ended September 30, 2023 was a decrease of \$140 and \$53,474, respectively (three and nine months ended September 30, 2022 - \$9,350 and \$36,468 decreases, respectively). The change in fair value of investment properties was primarily driven by an adjustment to record investment properties at fair value based on the Company's estimate of fair value using level 3 inputs as of September 30, 2023. The adjustments for the three and nine months periods ended September 30, 2023 were primarily driven by downward adjustments to assisted living facilities, skilled nursing facilities and memory care buildings to reflect current market conditions and sale prices associated with properties disposed of by the Company. The adjustments for the prior year periods were primarily driven by downward adjustments of transitional care facilities and skilled nursing facilities to reflect market conditions at the time.

***Change in fair value of financial instruments from continuing operations***

Change in fair value of financial instruments consists of the following:

	Three months ended September 30,		Nine months ended September 30,	
	2023	2022	2023	2022
Change in fair value of interest rate swaps	\$ 2,911	\$ (6,594)	\$ 6,412	\$ (25,592)
Change in fair value of convertible debentures	(15,200)	—	(23,889)	—
Change in fair value of prepayment embedded derivatives	327	131	367	2,442
Change in fair value of loans receivable classified as FVTPL	—	—	(1,390)	—
<b>Total loss (income) from change in fair value of financial instruments</b>	<b>\$ (11,962)</b>	<b>\$ (6,463)</b>	<b>\$ (18,500)</b>	<b>\$ (23,150)</b>

The change in fair value of financial instruments for the three and nine months ended September 30, 2023 and 2022 was due to changes in variable interest rates that underlie the corresponding interest rate swaps and changes in the valuation of the 2018 Convertible Debenture dues to amended terms in May 2023 and September 2023. The trading price of the debentures has significantly decreased below original par value. Interest rate swaps are used to manage interest costs on debt. The Company does not apply hedge accounting to its interest rate swaps, and as a result they are marked to fair value each reporting period through finance costs in the consolidated statements of income (loss) and other comprehensive income (loss). The change in fair value of financial instruments is also due to the change in fair value of prepayment embedded derivatives on certain mortgages payable due to changes in market interest rates.

### ***Income from joint ventures***

	Three months ended September 30,		Nine months ended September 30,	
	2023	2022	2023	2022
Revenue	\$ 9,308	\$ 8,126	\$ 27,338	\$ 23,998
Other income	—	—	1,742	289
Property operating expense	7,843	6,965	22,936	19,219
Depreciation expense	—	—	1	249
Finance costs	1,041	894	3,046	3,524
Real estate tax expense	7	—	7	197
General and administrative expenses	29	328	32	1,923
Change in fair value of financial instruments	490	—	1,013	(3,534)
Change in fair value of investment properties	1,352	(1,240)	1,651	2,857
Gain on sale of interest in a joint venture	—	958	—	(4,294)
<b>Income (loss) from joint ventures</b>	<b>\$ (1,454)</b>	<b>\$ 221</b>	<b>\$ 394</b>	<b>\$ 4,146</b>

Income (loss) from joint ventures represents the Company's share of net income or loss from entities in which the Company has an equity or jointly controlled interest. The decrease in income from joint ventures during the three month period ended September 30, 2023 as compared to the same period in the prior year is primarily due to the change in fair value of investment properties. The decrease in income from joint ventures during the nine month period ended September 30, 2023 as compared to the same period in the prior year is primarily due to a prior period gain on sale of joint venture interest. Revenues have increased due to increased occupancy and rates, which are partially offset by increases in property operating expenses due to rising labor costs and inflationary pressures.

### ***Income tax expense/recovery from continuing operations***

For the Canadian and U.S. corporate subsidiaries of the Company, income tax expense/recovery is comprised of current and deferred tax. Certain subsidiaries of the Company are limited partnerships and, accordingly, are not subject to income tax. Taxable income or loss of the partnerships is allocated to their partners, which includes the Company. Current income tax expense recorded in the current year period within the discontinued operations reportable segment resulted from the sale of investment property.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The deferred tax asset value is limited based on the probability of realizing the future benefits. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred income tax recovery recorded in the current year period resulted from the recording of the equity component of the debenture amendments.

The Company anticipates that future current income tax expense will result from distributions from its U.S. subsidiaries to the Canadian corporation, which will be subject to a 5% withholding tax. No such distributions were made during the periods presented.

### ***Other comprehensive loss: unrealized gain (loss) on translation of foreign operations***

Unrealized loss on translation of foreign operations for the three and nine months ended September 30, 2023 was \$1,069 and \$(87), respectively (three and nine months ended September 30, 2022 - \$(3,150) and \$(4,066), respectively). The decrease in loss for the three and nine months as compared to the prior year periods was due to the sale of all Canadian medical office buildings during 2022, which was offset by the change in value of the Canadian dollar as compared to the U.S. dollar during the period. During the three and nine months ended September 30, 2023 the Company reclassified \$(22) and \$7, respectively, of unrealized foreign exchange gain to realized foreign exchange gain related to activity within the medical office building reportable segment.

## Cash Flow Analysis

	Nine months ended September 30,	
	2023	2022
Cash provided by operating activities	\$ 8,224	\$ 14,287
Cash used in financing activities	(121,895)	(144,148)
Cash provided by (used in) investing activities	105,864	138,960
Increase (decrease) in cash and cash equivalents	\$ (7,807)	\$ 9,099

### *Cash Provided by Operating Activities*

Cash from operating activities decreased during the nine month period ended September 30, 2023 as compared to the prior year period. The decrease is primarily due to a reduction in the number of properties owned.

### *Cash Used In Financing Activities*

Cash used in financing activities for the nine month period ended September 30, 2023 was \$121,895 as compared to cash used in financing activities of \$144,148 in the prior year period. The variance in cash used in financing activities as compared to the prior year was primarily driven by net activity on mortgages payable and credit facilities, which included multiple mortgage refinancings with proceeds totaling \$97,546

### *Cash Provided By Investing Activities*

Cash from investing activities for the nine month period ended September 30, 2023 was \$105,864 as compared to cash provided by investing activities of \$138,960 in the prior year period. The decrease in cash provided by investing activities as compared to the prior year period was primarily due to a decrease in distributions from joint ventures and a decrease in proceeds from dispositions of property plant and equipment.

## Financial Position

Total assets of \$890,403 are comprised primarily of \$377,345 of investment properties, which represents the estimated fair market value of the Company's portfolio of properties, including capital expenditures, and \$357,410 of property, plant and equipment, net of \$106,777 of accumulated depreciation as at September 30, 2023. Cash on hand at September 30, 2023 was \$19,772, net loans receivable were \$15,746, investments in joint ventures were \$49,089, total derivative assets were \$3,598, and other assets were \$13,098. Total gross loans receivable of \$27,812 is offset by an allowance for losses on loans receivable of \$12,066. Gross loans receivable includes \$12,137 of gross loans made to the tenant operator Symphony. Other assets primarily consisted of \$7,127 of escrows held by lenders, \$3,281 of prepaid expense, \$752 of right-of-use asset, \$499 of bond assets and \$1,338 of other costs. In addition, current assets include tenant and other receivables of \$5,344, real estate tax receivables of \$6,780, and assets held for sale of \$39,765. The loans receivable balance related mainly to the issuance of loans for the development and operation of seniors housing and care properties in the United States and Canada.

Total liabilities of \$707,125 includes current liabilities of \$451,176 (see "Liquidity and Capital Resources" for additional information) and non-current liabilities of \$255,949. The current liabilities included \$8,417 of real estate taxes payable. Accounts payable and accrued liabilities represented \$15,885 of the balance in current liabilities. In addition, current liabilities included \$80,842 representing the current portion of mortgages payable, net of loan fees. Non-current liabilities included \$161,073 representing the non-current portion of mortgages payable, net of loan fees; \$0 representing the non-current balance outstanding on the credit facilities, net of loan fees; \$33,631 of the convertible debentures, net of fees; \$58,238 of Commonwealth preferred unit liability; and \$405 of non-controlling interest liability. Other non-current liabilities of \$2,568 primarily consisted of security deposits received from tenants, lease liability, loan commitment liability, earn-out payable, and a liability related to deferred shares granted under the Company's deferred share incentive plan.

## Summary of Quarterly Results

The following table summarizes the Company's quarterly unaudited financial information from July 1, 2021 through September 30, 2023:

	Three months ended September 30, 2023	Three months ended June 30, 2023	Three months ended March 31, 2023	Three months ended December 31, 2022	Three months ended September 30, 2022	Three months ended June 30, 2022	Three months ended March 31, 2022	Three months ended December 31, 2021

(1) Represents amounts presented from continuing operations, and excludes activity from the medical office building segment, which has been reported as discontinued operations.

(2) Funds from operations and adjusted funds from operations, and related per share amounts, are supplemental measures which are not defined by IFRS. See "Financial Measures not Defined Under IFRS".

The Company's results for the past eight quarters have primarily been affected by the timing of property acquisitions, dispositions, transfers, changes in the fair value of investment properties and financial instruments, and allowance for credit losses on loans receivable and interest receivable. Refer to the "Summary of Quarterly Results" and "Recent Activities" section of this MD&A for details of the results.

## **Liquidity and Capital Resources**

The Company's objectives when managing capital are to ensure sufficient liquidity to pursue its organic growth combined with strategic acquisitions and to maintain a flexible capital structure that optimizes the cost of capital at acceptable levels of risk while preserving the ability to meet financial obligations.

The capital of the Company consists of mortgages payable, credit facilities, convertible debentures, and shareholders' equity.

The Company expects to meet its working capital requirements with respect to accounts payable and accrued liabilities through cash on hand and operating cash flows. As at September 30, 2023, current liabilities totaled \$451,176, and current assets totaled \$86,366, resulting in a working capital deficit of \$364,810 (December 31, 2022 - \$483,134, \$81,764 and \$401,370, respectively). The Company expects to be able to meet all of its obligations as they become due utilizing some or all of the following sources of liquidity: (i) cash on hand at period end of \$4,772 in excess of lender requirements of \$15,000, (ii) cash flows generated from operations, (iii) property-specific mortgages and refinancings and (iv) strategic sale of assets. The Company also has the ability to raise additional liquidity through issuance of common shares, subject to market conditions, and alternative financing sources. With respect to near term debt maturities, the Company believes it will be successful in either refinancing each of the near term debt instruments or settling the debt instruments through sales of the underlying assets securing such debts. On November 8, 2023, the Company executed an amended credit agreement for the corporate credit facility, extending the maturity date to March 31, 2025 and amending various terms including interest rates, debt service coverage ratio, and restrictions on subordinated debt and other payments, among others.

In addition, liquidity risk is managed in part through cash forecasting. The Company monitors forecasts of liquidity requirements to ensure it has the ability to meet operational needs by maintaining sufficient availability of the combination of cash and debt capacity, and to ensure the Company will meet its financial covenants related to various debt agreements. Such forecasting involves a significant degree of judgment which takes into consideration current and projected macroeconomic conditions, the Company's cash collection efforts, debt financing and refinancing plans, and covenant compliance required under the terms of various debt agreements. There is a risk that such liquidity forecasts may not be achieved and that currently available debt financing that matures in the next 12 months may no longer be available to the Company at terms and conditions that are forecasted, or at all.

The Company announced on April 10, 2020 that it has suspended the dividend for all common shares beginning from April 1, 2020 until further notice. To further enhance its liquidity position, the Company is analyzing a variety of options to reduce or defer non-essential capital expenditures and to reduce corporate-level costs, some of which have already been implemented.

The Company, while considering externally imposed capital requirements, sets the amount of capital in proportion to risk and manages the capital structure and makes adjustments to it in response to changes in economic conditions and the risk characteristics of the underlying assets. In managing its capital structure, the Company monitors performance throughout the period to ensure working capital requirements are funded from operations, available cash on deposit, and available financing. The Company may make changes to its capital structure in order to support the broader corporate strategy or in response to economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust its capital structure, the Company may issue equity or new debt, issue new debt with different characteristics to replace existing debt, or reduce the amount of existing debt.

The real estate industry is capital-intensive by nature. As a result, debt capital is an important aspect in managing the business. In addition, financial leverage is used to enhance terms from purchased real estate. The Company actively monitors debt maturities and available debt financing options to best adhere to its corporate strategy.

### *Preferred Equity*

The Company entered into subscription agreements in prior periods with respect to the issuance of class A convertible preferred shares to affiliates of Magnetar for aggregate gross proceeds of \$86,050, funded in multiple series. The purpose

of the transactions was to raise proceeds to be used for the repayment of debt, general working capital purposes and to fund future acquisitions. The Company issued 9,098,598 preferred shares.

As at September 30, 2023, the Preferred Shares are convertible into 12,790,409 common shares of the Company. The weighted average accretion rate of the four series of preferred shares is 6.32%.

## **Debt Strategy and Indebtedness**

### *Debt Strategy*

The Company, taking into account availability of financing, market conditions, and the financial characteristics of the properties, seeks to maintain a combination of short, medium, and long-term debt maturities that are appropriate for the overall debt level of its portfolio. The Company utilizes conventional property-specific or portfolio-specific secured mortgages, as well as unsecured and non-recourse financing. Management's objectives are to access the lowest cost debt with flexible terms, to diversify the Company's lender base, and to have a debt maturity schedule spread over a time horizon which allows the Company to effectively manage refinancing risk and to be in a position to finance within the Company's target debt levels when investment opportunities become available. Management monitors the Company's debt by reviewing the debt to total assets ratio, interest coverage ratio, debt maturity schedule, and ratio of fixed versus floating rate debt. The Company plans to reduce the corporate credit facility by refinancing qualified assets with the United States Department of Housing and Urban Development over the upcoming 18 months. Over the long-term, the Company strives to have a portfolio with an average years to maturity of four-seven years.

To manage interest rate risk, the Company may enter into derivative instruments from time to time. Management's objectives are to source the lowest cost fixed rate debt within its targeted levels while laddering its fixed rate maturity schedule to effectively manage repricing risk. The Company does not designate its interest rate swaps as hedges for financial reporting purposes, and they are marked to fair value each reporting period through change in fair value of financial instruments in the consolidated statements of loss and other comprehensive loss.

Indebtedness

	Principal Amount	Weighted Average Interest Rate	Years to Maturity <sup>(2)</sup>
<b>Fixed Rate Indebtedness</b>			
Commonwealth Facility	\$ 177,878	5.8 % <sup>(1)</sup>	0.8
Mortgages payable	142,327	4.7 % <sup>(1)</sup>	7.4
2016 Convertible Debentures	24,850	7.0 %	1.3
2018 Convertible Debentures	4,828	8.8 %	—
2018 Convertible Debentures	43,415	8.8 %	0.3
	<u>393,298</u>	<u>5.8 %</u>	<u>3.4</u>
<b>Variable Rate Indebtedness</b>			
Credit Facility Term	\$ 158,559	7.6 %	0.2
Mortgages payable	97,110	8.0 %	1.3
	<u>256,134</u>	<u>7.8 %</u>	<u>0.6</u>
Total indebtedness	\$ 649,432	6.6 %	2.3
Less loan fees and issue costs, net of amortization and accretion	(1,088)		
Equity component of convertible debentures, excluding issue costs and taxes	(11,490)		
Mark-to-market adjustment, net	(20,141)		
Carrying amount	<u>\$ 616,713</u>		

(1) Weighted average interest rates include debt that is fixed with interest rate swaps and interest rate caps.

(2) Years to maturity does not include the exercise of extension options, where available, and which are generally exercisable at the Company's discretion.

## Joint Venture Indebtedness

	Principal Amount	Weighted Average Interest Rate	Years to Maturity
Fixed rate mortgages payable	\$ 83,075	4.0 % <sup>(1)</sup>	2.6
Variable rate mortgages payable	17,559	8.4 %	0.6
Total Indebtedness	\$ 100,634	4.8 %	2.2
Less loan fees, net of amortization	(1,118)		
Carrying amount	\$ 99,516		
Company's share of carrying amount	\$ 83,007		

(1) Weighted average interest rates include debt that is fixed with interest rate swaps.

### 2016 Convertible Debentures

On December 16, 2016, the Company issued an aggregate principal amount of \$45,000 of convertible unsecured subordinated debentures (the "2016 Convertible Debentures"). The 2016 Convertible Debentures were originally due on January 31, 2022 and interest was borne at an annual rate of 5.00%, payable semi-annually in arrears on July 31 and January 31 of each year and commencing on July 31, 2017.

On November 15, 2021, a meeting of holders of the 2016 Convertible Debentures was held at which the holders of 2016 Convertible Debentures ("2016 Debentureholders") approved amendments to the 2016 Convertible Debentures, including the following:

1. Increase the interest rate from 5.00% to 7.00%, effective January 31, 2022.
2. Decrease the conversion price from \$11.00 to \$5.00 per share.
3. Extend the maturity date from January 31, 2022 to January 31, 2025.
4. Redemption of \$20,000 of the principal amount of the 2016 Convertible Debentures as of the close of business on January 31, 2022.

On January 31, 2022 (the "Redemption Date"), the Company redeemed \$20,000 of the principal amount of the 2016 Convertible Debentures outstanding plus accrued and unpaid interest (at 5.00%) thereon. In accordance with the Debenture Amendments, the interest rate on the remaining 2016 Convertible Debentures was increased to 7.00% effective January 31, 2022.

Upon redemption or maturity, the Company may satisfy its obligations with respect to the convertible debentures in cash or the issuance of common shares based on 95% of the Current Market Price on the Redemption Date or Maturity Date, respectively.

### 2018 Convertible Debentures

On August 24, 2018, the Company issued an aggregate principal amount of \$50,000 of convertible unsecured subordinated debentures ("2018 Convertible Debentures"). The 2018 Convertible Debentures are due on September 30, 2023 and bear interest at an annual rate of 6.00% payable semi-annually in arrears on March 31 and September 30 of each year commencing on March 31, 2019.

On January 31, 2022 (the "Redemption Date"), the Company redeemed \$20,000 of the principal amount of the 2016 Convertible Debentures outstanding plus accrued and unpaid interest (at 5.00%) thereon. In accordance with the Debenture Amendments, the interest rate on the remaining 2016 Convertible Debentures was increased to 7.00% effective January 31, 2022.

On May 23, 2023, a meeting of holders of the 2018 Convertible Debentures was held at which the holders of the 2018 Convertible Debentures ("2018 Debentureholders") approved amendments to the 2018 Convertible Debentures, including the following:

1. Increase the interest rate from 6.00% to 8.75%, effective September 30, 2023.

2. Decrease the conversion price from \$10.70 to \$2.75 per share.
3. Extend the maturity date from September 30, 2023 to September 30, 2026.
4. Redemption of \$22,000 of the principal amount of the 2018 Convertible Debentures as of the close of business on September 30, 2023.

On September 26, 2023, a meeting of holders of the 2018 Convertible Debentures was held whereby the 2018 Debentureholders approved proposed amendments to the 2018 Convertible Debentures. The approved amendments include the following changes to the 2018 Convertible Debentures:

1. Decrease the amount to be redeemed in 2023 to \$4,828.
2. Decrease the conversion price from \$2.75 to \$1.10 per share.
3. Add a covenant that the Corporation shall not make any cash repayment or redemption of principal on the Corporation's outstanding 2016 Convertible Debentures whether before, on or after the maturity date of the 2016 Convertible Debentures unless, prior to or contemporaneously with the repayment or redemption of 2016 Convertible Debentures, it redeems or repays for cash an equal principal amount of the amended debentures of the maturity date from September 30, 2023 to September 30, 2026.
4. Adding a covenant that the Corporation shall not issue (i) a new class or series of unsecured convertible debentures unless the maturity date for such debentures is at least 18 months after September 30, 2026 or (ii) senior notes in exchange for, or to fund the cash repayment of, all or a portion of the 2016 Convertible Debentures.

As a result of the substantive modification of the terms of the 2018 Convertible Debentures, on the date of modification the amortized cost of the previously recorded liability was derecognized for an amount equal to its fair value, resulting in a gain of \$15,200 recorded within the "Change in fair value of financial instruments" financial statement caption. The previously recorded equity component of the 2018 Convertible Debentures was transferred to share capital, and the fair value of the liability and equity components of the modified convertible debentures were recorded.

Upon redemption or maturity, the Company may satisfy its obligations with respect to the convertible debentures in cash or the issuance of common shares based on 95% of the Current Market Price on the Redemption Date or Maturity Date, respectively.

#### *Debt Covenant Compliance*

##### Credit Facility:

Debt to total assets is calculated by dividing the total consolidated indebtedness, net of loan costs, by the total consolidated assets of the Company. Consolidated assets is calculated using the total undepreciated purchase price of the Company's real estate, as defined in the agreement. At September 30, 2023, the Company is in compliance with the required debt to total asset ratio under the terms of the Credit Facility.

The Company's fixed charge coverage ratio is calculated by dividing adjusted earnings before interest, taxes, depreciation and amortization by certain fixed charges, which are comprised of interest expense payable in cash, regularly scheduled principal payments, and preferred dividends paid. For covenant purposes, the consolidated fixed charge coverage ratio is calculated on a trailing twelve month basis. For the twelve month period ended September 30, 2023, the fixed charge coverage ratio of the Company was in compliance with the levels required under the terms of the Credit Facility. For the same period, all other debt covenants were in compliance.

##### Mortgage Debt:

The Company's mortgage debt includes various financial covenants which include, but are not limited to, debt service coverage ratios, fixed charge ratios and debt yields. At September 30, 2023, the Company is in compliance with all such covenants.

## Repayment Summary

Management attempts to stagger the maturity of the Company's fixed rate debt in order to achieve a distribution of maturities over a time horizon. This strategy reduces the Company's exposure to interest rate fluctuations on its fixed rate debt in any one period and reduces liquidity risk. From time to time, the Company will assume existing debt upon the acquisition of income properties, and the maturity of such debt may not fit within the overall target debt maturity profile of the Company.

## Contractual Commitments

A summary of future contractual commitments as at September 30, 2023, including expected interest payments, is as follows:

	Total	2023	2024	2025	2026	2027	Thereafter
Credit facilities principal	\$336,902	\$159,650	\$177,252	\$ —	\$ —	\$ —	\$ —
Mortgages payable principal	239,437	48,736	40,763	89,315	1,398	18,165	41,060
Convertible debentures principal	73,093	4,828	—	24,850	43,415	—	—
Commonwealth preferred unit liability principal <sup>(1)</sup>	57,906	—	—	57,906	—	—	—
<b>Total principal</b>	<b>\$707,338</b>	<b>\$213,214</b>	<b>\$218,015</b>	<b>\$172,071</b>	<b>\$ 44,813</b>	<b>\$ 18,165</b>	<b>\$ 41,060</b>
Percentage of total	100.0 %	30.1 %	30.8 %	24.3 %	6.3 %	2.6 %	5.9 %
Credit facilities interest	\$ 11,166	\$ 5,225	\$ 5,941	\$ —	\$ —	\$ —	\$ —
Mortgages payable interest	37,313	3,508	9,922	4,313	2,570	1,797	15,203
Convertible debentures interest	14,006	—	5,538	4,669	3,799	—	—
Commonwealth preferred unit liability interest	6,787	997	3,860	1,930	—	—	—
Accounts payable and accrued liabilities	15,885	15,885	—	—	—	—	—
Accrued real estate taxes	8,417	8,417	—	—	—	—	—
Other current liabilities	3,906	3,906	—	—	—	—	—
Other non-current liabilities	2,568	460	507	247	134	72	1,148
<b>Total other commitments</b>	<b>\$100,048</b>	<b>\$ 38,398</b>	<b>\$ 25,768</b>	<b>\$ 11,159</b>	<b>\$ 6,503</b>	<b>\$ 1,869</b>	<b>\$ 16,351</b>
<b>Total commitments</b>	<b>\$807,386</b>	<b>\$251,612</b>	<b>\$243,783</b>	<b>\$183,230</b>	<b>\$ 51,316</b>	<b>\$ 20,034</b>	<b>\$ 57,411</b>

(1) The liability has no stated maturity date. The Company's anticipates repaying the liability by 2025 based on cash flow forecasts.

The credit facilities have an outstanding balance of \$336,339 as of September 30, 2023. On November 8, 2023, the Company executed an amended credit agreement for the corporate credit facility, extending the maturity date to March 31, 2025 and amending various terms including interest rates, debt service coverage ratio, and restrictions on subordinated debt and other payments, among others. The Company is in active negotiations to extend the Commonwealth credit facility and fully expects to execute in advance of its maturity date. In addition, the Company has twelve-month contractual extension options available within the existing agreement, which can be executed upon the satisfaction of certain performance metrics within the underlying portfolio of properties.

Mortgages payable are comprised of mortgages secured by individual investment properties or small portfolios of investment properties.

Accounts payable consisted primarily of professional fees, other general and administrative costs payable, accrued interest, and other accrued costs.

Other non-current liabilities primarily relate to the issuance of deferred shares under the Company's deferred share incentive plan, lease liability and security deposits received from tenant operators.

## Financial Instruments and Other Instruments

To manage interest rate risk, the Company may enter into interest rate swap agreements from time to time. Please refer to the "Debt Strategy and Indebtedness" section of this MD&A.

## Off-Balance Sheet Items

There were no off-balance sheet items as of September 30, 2023.

## Transactions Between Related Parties

The Company entered into subscription agreements in 2017, 2018 and 2019 in respect of the issuance of class A convertible preferred shares to certain funds managed by Magnetar Financial LLC (collectively, "Magnetar"), a significant shareholder of the Company (approximately 26% of common shares as of September 30, 2023), funded in multiple series. The purpose of the transaction was to raise proceeds to be used for the repayment of debt, general working capital purposes and to fund future acquisitions. The Company issued 9,098,598 preferred shares for aggregate gross proceeds of \$86,050, which remain outstanding as of September 30, 2023.

On June 5, 2019, the Company formed a joint venture, Jaguarundi Ventures, LP, with Magnetar. The Company contributed 8 properties to a newly formed joint venture and received \$23,000 from Magnetar in exchange for a 39.49% interest in the joint venture. As of April 1, 2022, Jaguarundi Ventures, LP has sold all properties owned by the joint venture.

## Critical Accounting Estimates

The preparation of consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses throughout the period. Actual results could differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. Information about assumptions and estimation uncertainties that may have a significant risk of resulting in a material adjustment within the next financial year are as follows:

### *Change in fair value of investment properties:*

The significant assumptions used when determining the fair value of investment properties in use are capitalization rates, terminal capitalization rates, future cash flows over a holding period and stabilized future cash flows. The capitalization rate applied is reflective of the characteristics, location and market of each investment property. The terminal capitalization rate applied is reflective of a rate of return a third party investor would require to purchase the property at its estimated future cash flow stream. Future cash flows over a particular holding period is based on forward-looking budgets prepared by operators, historical performance of properties and geographical or market trends. The stabilized future cash flows of each investment property are based upon rental income from current leases and assumptions about market rent from future leases reflecting current conditions, less future cash outflows relating to such current and future leases.

Management determines fair value internally utilizing internal financial information, external market data and capitalization rates provided by independent industry experts. As part of Management's internal valuation program, the Company also considers external valuations performed by independent national real estate valuation firms for a cross-section of properties that represent different geographical locations across the Company's portfolio and updates, as deemed necessary, the valuation models to reflect current market data.

### *Impairment of loans receivable:*

In determining the amount of expected credit losses, the Company's significant assumptions include the assessment of probability of default and loss given default. The determination takes into account different factors and varies by nature of investment.

The Company considers reasonable and supportable information that is relevant and available without undue cost or effort. Management considers past events, current market conditions and reasonable forward-looking supportable information about future economic conditions. In assessing information about possible future economic conditions, management utilized multiple economic scenarios including a base case, which represents the most probable outcome and is consistent with management's view of the financial asset. In considering the lifetime of a loan, the contractual period of the loan, including prepayment, extension and other options is generally used.

The estimation of expected credit losses also includes assumptions about local real estate market conditions, availability and terms of financing, underlying value of the security and various other factors. These assumptions are limited by the availability of reliable comparable market data, economic uncertainty and the uncertainty of future events.

*Impairment of property, plant and equipment:*

The Company makes a determination at each reporting date if any events have occurred that would indicate property, plant and equipment may be impaired. If impairment indicators exist, management estimates the underlying assets' recoverable amount based on future cash flows and capitalization and discount rates in order to determine whether an impairment loss should be recognized.

*Other:*

Estimates are also made in the determination of the fair value of financial instruments and include assumptions and estimates regarding future interest rates, the relative creditworthiness of the Company to its counterparties, the credit risk of the Company's counterparties, the estimated future cash flows and discount rates.

## **Significant Accounting Policies and Changes in Accounting Policies**

A summary of significant accounting policies and changes in accounting policies is set forth in notes 1 and 2, respectively, of the consolidated financial statements for the year ended December 31, 2022.

## **Risks and Uncertainties**

See "Risk Factors" in the Company's 2022 AIF for a discussion of risks that could materially affect the Company, which risk factors are incorporated herein by reference.

## **Controls and Procedures**

We are committed to maintaining effective disclosure controls and procedures and internal control over financial reporting. A control system, no matter how well conceived and operated, can provide only reasonable, and not absolute, assurance that its objectives are met. As a result of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues, including instances of fraud, if any, have been detected. These inherent limitations include, among other items: (i) that management's assumptions and judgments could ultimately prove to be incorrect under varying conditions and circumstances and (ii) the impact of isolated errors. Additionally, controls may be circumvented by the unauthorized acts of individuals, by the collusion of two or more people, or by management override. The design of any system of controls is also based, in part, upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential conditions.

### *Disclosure Controls and Procedures*

The Company's disclosure controls and procedures are designed to provide reasonable assurance that information required to be disclosed is recorded, processed, summarized, and reported within the time periods specified under Canadian securities laws and to include controls and procedures that are designed to ensure that information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure. The Chief Executive Officer and Chief Financial Officer have evaluated, or caused to be evaluated under their supervision, the effectiveness of the Company's disclosure controls and procedures as at December 31, 2022 and have concluded that, as of such date, the Company's disclosure controls and procedures were adequate and effective.

## *Internal Controls Over Financial Reporting*

The Company is responsible for establishing and maintaining adequate internal controls over financial reporting to provide reasonable assurance about the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS. The Chief Executive Officer and the Chief Financial Officer assessed, or caused an assessment under their direct supervision of the design of our internal controls over financial reporting as at September 30, 2023, and based on that assessment, they determined that the Company's internal controls over financial reporting were appropriately designed and were operating effectively in accordance with the 2013 COSO framework as published by the Committee of Sponsoring Organizations of the Treadway Commission.

There were no changes in internal controls over financial reporting that occurred during the period ended September 30, 2023 that have materially affected or are reasonably likely to materially affect the Company's internal controls over financial reporting.

## **Outstanding Shares**

As of November 9, 2023, 56,211,294 common shares in the capital of the Company were issued and outstanding.

Each 2016 Convertible Debenture is convertible into freely tradable common shares of the Company at the option of the holder at any time prior to the earlier of January 31, 2025 and the last business day immediately preceding the date specified by the Company for redemption, at a conversion price of \$5.00 per common share. Subsequent to the \$20,000 paydown of the 2016 Convertible Debentures on January 31, 2022, if all outstanding 2016 Convertible Debenture were converted into common shares of the Company, it would result in the issuance of 4,970,000 additional common shares. Upon redemption or maturity, the Company may satisfy its obligations with respect to the convertible debentures in cash or the issuance of common shares based on 95% of the Current Market Price on the Redemption Date or Maturity Date, respectively.

Each 2018 Convertible Debenture is convertible into freely tradable common shares of the Company at the option of the holder on or after September 30, 2022, and prior to September 30, 2023 at a conversion price of \$10.70 per common share. If all outstanding 2018 Convertible Debenture were converted into common shares of the Company, it would result in the issuance of 4,509,978 additional common shares. Upon redemption or maturity, the Company may satisfy its obligations with respect to the convertible debentures in cash or the issuance of common shares based on 95% of the Current Market Price on the Redemption Date or Maturity Date, respectively. After September 30, 2023, and before September 30, 2026, the 2018 Convertible Debentures can be converted into 9,550,182 shares.

As of November 9, 2023, there were 2,802,009 Series 1 Preferred Shares outstanding, 3,172,086 Series 2 Preferred Shares outstanding, 1,586,042 Series 3 Preferred Shares and 1,538,461 Class A Series 4 Preferred Shares. The Series 1 Preferred Shares, Series 2 Preferred Shares, Series 3 Preferred Shares, and Series 4 Preferred Shares are convertible into freely tradable common shares of the Company. As of November 9, 2023, assuming the voluntary conversion of all of the Series 1 Preferred Shares, Series 2 Preferred Shares, Series 3 Preferred Shares, and Series 4 Preferred Shares then outstanding, a total of 12,326,592 common shares would be issued.

As of November 9, 2023, assuming the voluntary conversion of all of the Exchangeable Units, a total of 327,869 common shares would be issued.

As of November 9, 2023, assuming the voluntary conversion of all of the Commonwealth preferred units, a total of 6,010,872 common shares would be issued.

## Financial Measures

Funds From Operations ("FFO") and Adjusted Funds From Operations ("AFFO") are supplemental measures used by management to track the Company's performance. Management believes these terms reflect the operating performance and cash flow of the Company. The Company believes that AFFO and AFFO per share provide the most effective metric by which to evaluate the performance of the Company and to most accurately identify the cash flows available for distribution to shareholders. The Company considers RealPac's "White Paper on Funds From Operations and Adjusted Funds From Operations for IFRS" when calculating these measures.

### *Funds From Operations*

FFO means net income (loss) in accordance with IFRS, (i) plus or minus fair value adjustments of investment properties; (ii) plus or minus gains or losses from sales of investment properties; (iii) plus or minus certain other fair value adjustments; (iv) plus transaction costs expensed as a result of the sale or acquisition of property or modification of debt; (v) plus property taxes accounted for under IFRIC 21; (vi) plus allowance for credit losses on loans and interest receivable; (vii) plus accretion and amortization of non-cash adjustments to the 2016 Convertible Debentures and 2018 Convertible Debentures (viii) plus deferred income tax expense, current income tax expense, after adjustments for equity accounted entities calculated to reflect FFO on the same basis as consolidated properties and adjustments for non-controlling interests. The use of FFO, a non-IFRS measure, combined with the required IFRS presentations, has been included for the purpose of improving the understanding of the operating results of the Company. FFO presents an operating performance measure that provides a perspective on the financial performance that is not immediately apparent from net income (loss) determined in accordance with IFRS.

FFO is a financial measure not defined under IFRS, and FFO, as presented herein, may not be comparable to similar measures presented by other real estate investment trusts or real estate enterprises.

To the extent the Company's 2016 Convertible Debentures and 2018 Convertible Debentures were dilutive to FFO per share, the related interest, amortization, and accretion expense has been added back to calculate a diluted FFO for purposes of calculating diluted FFO per share.

The Company's FFO is calculated as follows (in thousands of U.S. dollars):

	Nine months ended September 30,	
	2023	2022
Net loss from continuing operations for the period	\$ (56,518)	\$ (16,017)
Add/(deduct):		
Change in fair value of investment properties	51,210	35,433
Property taxes accounted for under IFRIC 21	2,264	2,824
Depreciation and amortization expense	11,001	11,315
Amortization of tenant inducements	183	182
Accretion expense and amortization of non-cash adjustments to Convertible Debentures	7,524	2,204
Change in fair value of financial instruments	(18,500)	(23,150)
Change in fair value of contingent consideration	—	—
Transaction costs	1,328	—
Loss on sale of property, plant and equipment	(12)	3,009
Impairment of property, plant and equipment	3,636	—
Deferred income tax recovery	(1,917)	(1,127)
Allowance for credit losses on loans and interest receivable	14,635	7,222
Change in non-controlling interest liability in respect of the above	(99)	60
FFO adjustments for equity accounted entities at share	2,683	(5,428)
FFO from continuing operations	\$ 17,418	\$ 16,527
FFO from discontinued operations	(468)	560
Total FFO	\$ 16,950	\$ 17,087
Interest, amortization and accretion expense on dilutive convertible units <sup>(1)</sup>	1,305	1,481
Total diluted funds from operations	\$ 18,255	\$ 18,568
Weighted average number of shares, including fully vested deferred shares: Basic	56,718,681	56,684,212
Weighted average shares issued if all convertible units were converted <sup>(1)</sup>	17,665,447	17,283,837
Weighted average number of shares: Diluted	74,384,128	73,968,049
Funds from operations per share	\$ 0.30	\$ 0.30
Diluted funds from operations per share	\$ 0.25	\$ 0.25

(1) For the nine months ended September 30, 2023, dilutive convertible units include Preferred shares and Exchangeable units. For the nine months ended September 30, 2022, dilutive convertible units include 2016 Convertible Debentures, Preferred Shares and Exchangeable Units.

## Adjusted Funds From Operations

The Company maintains the view that AFFO is an effective measure of cash generated from operations, after providing for certain adjustments. AFFO means cash provided by operating activities, subject to certain adjustments, which include: (i) adjustments for certain non-cash working capital items that are not considered indicative of sustainable economic cash flow available for distribution; (ii) adjustments for interest expense on the credit facilities and mortgages payable that is included in finance costs; (iii) adjustments for cash paid for interest; (iv) add backs for compensation expense related to the Company's deferred share incentive plan; (v) add backs for payments received under the Company's income support agreements and development lease arrangements; (vi) add backs for the write-off of deferred financing costs from refinancing; and (vii) other adjustments as determined by the directors of the Company in their sole discretion.

AFFO is a financial measure not defined under IFRS, and AFFO, as presented herein, may not be comparable to similar measures presented by other real estate investment trusts or real estate enterprises.

To the extent the Company's 2016 Convertible Debentures and 2018 Convertible Debentures were dilutive to AFFO per share, the related interest has been added back to calculate a diluted AFFO for purposes of calculating diluted AFFO per share.

The Company's AFFO is calculated as follows (in thousands of U.S. dollars):

	Nine months ended September 30,	
	2023	2022
Cash flows provided by (used in) operating activities	\$ 8,224	\$ 14,287
Change in non-cash working capital	5,891	2,074
Less: interest expense <sup>(1)</sup>	(29,125)	(29,116)
Less: change in non-controlling interest liability	(231)	(448)
Plus: loss from joint ventures	394	4,146
Plus: interest paid	28,840	31,483
Less: interest received	(275)	(414)
Plus: debt extinguishment costs	353	584
Plus: realized loss on currency exchange	(7)	—
Plus: amortization of lease asset	(192)	—
Plus: current income tax expense	992	—
Plus: non-cash portion of non-controlling interest expense	(96)	49
Plus: adjustments for equity accounted entities	2,713	(4,373)
Plus: deferred share incentive plan compensation	143	376
Less: capital maintenance reserve	(2,109)	(2,188)
AFFO	\$ 15,515	\$ 16,460
AFFO from discontinued operations	(329)	1,141
AFFO from continuing operations	\$ 15,844	\$ 15,319
Interest expense on dilutive convertible units <sup>(2)</sup>	1,305	913
Total diluted adjusted funds from operations	\$ 16,820	\$ 17,373
Weighted average number of shares, including fully vested deferred shares: Basic	56,718,681	56,684,212
Weighted average shares issued if all dilutive convertible units were converted <sup>(2)</sup>	17,665,447	17,283,837
Weighted average number of shares: Diluted	74,384,128	73,968,049
Adjusted funds from operations per share	\$ 0.27	\$ 0.29
Diluted adjusted funds from operations per share	\$ 0.23	\$ 0.23

(1) Includes interest expense on the credit facilities, mortgages payable, convertible debentures, interest rate swaps, write off of deferred financing costs from refinancing, debt extinguishment costs and interest income earned on notes receivable included in finance costs.

(2) For the nine months ended September 30, 2023 and the nine months ended September 30, 2022, dilutive convertible units include 2016 Convertible Debentures, Preferred Shares and Exchangeable Units.

	Three months ended September 30, 2023	Three months ended June 30, 2023	Three months ended March 31, 2023	Three months ended December 31, 2022	Three months ended September 30, 2022	Three months ended June 30, 2022	Three months ended March 31, 2022	Three months ended December 31, 2021

Weighted average number of shares: Diluted	69,578,632	74,398,870	74,201,064	73,738,651	73,676,486	73,547,374	68,382,417	86,089,732
AFFO per share	\$ 0.05	\$ 0.10	\$ 0.12	\$ 0.10	\$ 0.11	\$ 0.12	\$ 0.06	\$ 0.09
Diluted AFFO per share	\$ 0.04	\$ 0.09	\$ 0.09	\$ 0.08	\$ 0.09	\$ 0.10	\$ 0.05	\$ 0.09

(1) Includes interest expense on the credit facilities, mortgages payable, convertible debentures, interest rate swaps, write off of deferred financing costs from refinancing, debt extinguishment costs and interest income earned on notes receivable.

The Company deducts a capital maintenance reserve in its calculation of AFFO based on estimated quarterly expenditures related to sustaining and maintaining existing space. Expenditures that are related to new development or revenue enhancing renovations are excluded from this calculation.

## Operational Measures

The Company reports on certain metrics related to the underlying operations in its stabilized income properties. The Company has defined stabilized income properties as follows:

*Long-term care facilities and transitional care properties* - stabilized upon the earlier of 80% occupancy at the underlying operating level for two consecutive quarters and 24 months after opening.

*Assisted living facilities* - stabilized upon the earlier of 90% occupancy for two consecutive quarters and 36 months after opening.

Properties meeting the above criteria are generally considered stabilized.

A property may be considered unstabilized if:

1. It is a new development that is not yet complete,
2. It is not yet stabilized and is within 12 months of the above criteria,
3. It is newly acquired within the last 12 months,
4. It is undergoing a major renovation or has within the last 12 months,
5. An operator transition has occurred or a binding agreement to transfer operations has been signed within the last 12 months,
6. It is held for sale and/or slated for closure,
7. A significant tenant or the licensed operator or management company has filed for bankruptcy, which is either ongoing or has been resolved within the last 12 months,
8. It has experienced significant incident of casualty materially disrupting the operations / financial performance, or
9. It has experienced a change in reporting structure, such as an alteration from triple-net lease to SHOP reporting structure

The Company believes relevant metrics for evaluating the performance of the underlying operations in stable, triple-net leased assets include operator lease coverage and occupancy.

All third-party operator data is made available solely from information as provided by the operators and has not been independently verified by the Company.

### NOI by Operating Segment

The tables below are presented at the Company's proportionate share and display trailing three months net operating income ("NOI") to the Company from its seniors housing operating properties ("SHOP"), triple-net lease and medical office building portfolios for the three and nine months ended September 30, 2023 and 2022.

	Three months ended September 30, 2023		Three months ended September 30, 2022	
	NOI	% of Total	NOI	% of Total
SHOP	\$ 9,054	55.7 %	\$ 8,319	41.2 %
NNN	7,145	44.0 %	11,306	56.0 %
MOB (discontinued operations)	44	0.3 %	556	2.8 %
	\$ 16,243	100.0 %	\$ 20,181	100.0 %

	Nine months ended September 30, 2023		Nine months ended September 30, 2022	
	NOI	% of Total	NOI	% of Total
SHOP	\$ 28,767	49.0 %	\$ 22,669	37.2 %
NNN	29,787	50.7 %	35,134	57.7 %
MOB (discontinued operations)	197	0.3 %	3,136	5.1 %
	\$ 58,751	100.0 %	\$ 60,939	100.0 %

*Triple-Net Lease Portfolio ("NNN")*

The Company's triple-net lease portfolio for the period ended September 30, 2023, consisted of 26 seniors housing and care properties which are leased to operators on a long-term, triple-net basis. Under a triple-net lease structure, the tenant operators assume the operational risks and expenses associated with operating the facility. The Company's triple-net leased portfolio as of September 30, 2023 had an average lease term to maturity, excluding renewal options, of approximately 9.8 years.

The table below displays the Company's contractual rental revenue from continuing operations for the twelve months ended September 30, 2023 and 2022.

	Contractual Rental Revenue, twelve months ended September 30, 2023 <sup>(1)</sup>	% of Total NNN Contractual Rental Revenue	Contractual Rental Revenue, twelve months ended September 30, 2022 <sup>(1)</sup>	% of Total NNN Contractual Rental Revenue
Symphony Care Network	\$ 8,774	25.3 %	\$ 14,053	32.6 %
Constant Care Management Company	6,312	18.2 %	5,883	13.6 %
Providence Group	5,716	16.5 %	5,514	12.8 %
Cascade Capital Group	5,130	14.8 %	4,223	9.8 %
Other	8,755	25.2 %	13,457	31.2 %
<b>Total</b>	<b>\$ 34,687</b>	<b>100.0 %</b>	<b>\$ 43,130</b>	<b>100.0 %</b>

(1) Represents contractual rental revenue for the respective time period.

The table below displays the Company's contractual forward twelve months rental revenue from continuing operations for the period commencing October 1, 2023.

	Contractual Rent, forward twelve months for the period beginning October 1, 2023	% of Total Contractual Rental Revenue
Constant Care Management Company	\$ 6,756	25.4 %
Providence Group	5,887	22.1 %
Cascade Capital Group	4,177	15.7 %
Hearth Management	3,743	14.1 %
Saber	2,440	9.2 %
Other	3,615	13.5 %
<b>Total</b>	<b>\$ 26,618</b>	<b>100.0 %</b>

*Seniors Housing Operating Properties ("SHOP")*

The Company's SHOP portfolio for the period ended September 30, 2023 consisted of 44 properties in which the Company wholly owns both the operations and the real estate of each community or owns an interest in both the operations and real estate through joint arrangements and where management services are provided to each community by a third-party management company.

The following table summarizes stabilized SHOP metrics for the three and nine months ended September 30, 2023 and 2022:

	Three months ended September 30,		Nine months ended September 30,	
	2023	2022	2023	2022
NOI margin	22.9 %	21.5 %	24.1 %	21.4 %
Occupancy	83.5 %	81.2 %	82.5 %	78.2 %
Revenue per resident (in whole U.S. dollars)	\$ 5,487	\$ 5,108	\$ 5,379	\$ 5,055

The table above includes the stabilized SHOP assets that were owned at the end of the respective reporting periods. NOI margin is calculated by dividing total NOI by total revenue for the respective period. Revenue per resident is calculated by dividing the average number of residents by total revenue for the respective period. These non-IFRS financial measures are commonly used to analyze performance within the seniors housing and care industry.

*Reconciliation of Net Operating Income to Net Income*

The tables below are presented to reconcile the Company's proportionate share of net operating income (NOI) to Net Income, which represents the nearest measure defined by IFRS.

	Three months ended September 30, 2023						
	NNN	SHOP	Medical office buildings (discontinued operations)	Total operations	Corporate/ other	Total	
Net income (loss)	\$ 4,813	\$ (8,841)	\$ (159)	\$ (4,187)	\$ 4,779	\$ 592
