## INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Invesque Inc.

### ***Opinion***

We have audited the consolidated financial statements of Invesque Inc. (the Entity), which comprise:

- the consolidated statements of financial position as at December 31, 2025 and December 31, 2024
- the consolidated statements of loss and comprehensive loss for the years then ended
- the consolidated statements of changes in shareholders' equity for the years then ended
- the consolidated statements of cash flows for the years then ended
- and notes to the consolidated financial statements, including a summary of material accounting policy information

(Hereinafter referred to as the “financial statements”).

In our opinion, the accompanying financial statements present fairly, in all material respects, the consolidated financial position of the Entity as at December 31, 2025 and December 31, 2024, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board.

### ***Basis for Opinion***

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the “***Auditor’s Responsibilities for the Audit of the Financial Statements***” section of our auditor’s report.

We are independent of the Entity in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## ***Key Audit Matters***

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the year ended December 31, 2025. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our auditor's report.

### ***Evaluation of the fair value of investment properties held within joint ventures***

#### ***Description of the matter***

We draw attention to Notes 1(g)(i), 2(b), and 8 of the financial statements. The Entity uses the fair value model to account for investment properties held within investments in joint ventures, using primarily a discounted cash flow approach. The estimated fair value of investment properties at the Entity's share held within joint ventures is \$102,682 thousand. Significant assumptions used when determining the fair value of investment properties include:

Future cash flows over the holding period, terminal capitalization rates and discount rates for each property valued using the discounted cash flow approach.

#### ***Why the matter is a key audit matter***

We identified the evaluation of the fair value of investment properties held within joint ventures as a key audit matter. This matter represented an area of significant risk of material misstatement given the magnitude of investment properties held within joint ventures and the high degree of estimation uncertainty in determining the fair value of investment properties. Additionally, significant auditor judgment and involvement of those with specialized skills and knowledge was required in evaluating the results of our audit procedures due to the sensitivity of the fair value of investment properties to minor changes in significant assumptions.

#### ***How the matter was addressed in the audit***

The primary procedures we performed to address this key audit matter included the following:

For a selection of investment properties valued using the discounted cash flow approach:

- We compared future cash flows over the holding period to the actual historical cash flows for each investment property. We took into account the changes in conditions and events affecting the investment properties to assess the adjustments, or lack of adjustments, made by the Entity in arriving at those future cash flows over the holding period.
- We involved valuations professionals with specialized skills and knowledge, who assisted in evaluating terminal capitalization rates and discount rates. These rates were evaluated by comparing them to published reports of real estate industry commentators taking into consideration the features of the specific investment property.

### ***Other Information***

Management is responsible for the other information. Other information comprises:

- the information included in Management's Discussion and Analysis of Results of Operations and Financial Condition for the Year Ended December 31, 2025.
- the information, other than the financial statements and the auditor's report thereon, included in a document likely to be entitled "2025 Annual Report".

Our opinion on the financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit and remain alert for indications that the other information appears to be materially misstated.

We obtained the information included in Management's Discussion and Analysis of Results of Operations and Financial Condition for the Year Ended December 31, 2025 as at the date of this auditor's report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact in the auditor's report. We have nothing to report in this regard.

The information, other than the financial statements and the auditor's report thereon, included in a document likely to be entitled "2025 Annual Report" is expected to be made available to us after the date of this auditor's report. If, based on the work we will perform on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact to those charged with governance.

### ***Responsibilities of Management and Those Charged with Governance for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Entity's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Entity or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Entity's financial reporting process.

## ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- Provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for the purposes of the group audit. We remain solely responsible for our audit opinion.
- Determine, from the matters communicated with those charged with governance, those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our auditor's report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

A handwritten signature in black ink that reads 'KPMG LLP'. The signature is written in a cursive, slightly slanted style. Below the signature is a horizontal line that starts under the 'K' and ends under the 'P'.

# INVESQUE INC.

Notes to Consolidated Financial Statements

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

Invesque Inc. (the "Company") was incorporated on May 31, 2007 under the Business Corporations Act (Ontario). The Company's registered office is 2500 - 700 W Georgia Street, Vancouver, British Columbia V7Y 1B3.

The Company currently owns a portfolio of North American income generating properties across the health care spectrum. The Company's investment property portfolio includes investments in assisted living, memory care and independent living properties, which are operated under management contracts or joint venture arrangements with operating partners. The Company's consolidated portfolio includes investments in owner-occupied seniors housing properties where Invesque Inc. owns the real estate and the operations, which are outsourced under management contracts to third party management companies.

At December 31, 2025, the Company owned interests in a portfolio of 7 health care and senior living properties of the type noted above. The portfolio comprised of three consolidated owner-occupied properties and partial interests in four properties held through joint ventures.

## Shareholder resolution

At the Company's Annual Meeting of Shareholders held on June 18, 2025, shareholders of the Company approved a special resolution, in addition to other customary approvals, for the sale or lease of all or substantially all of the assets of the Company in one or more transactions, including by way of asset sales or leases or other similar transactions as approved by the Board of Directors from time to time. Although the special resolution permits the Company to sell all or substantially all of its assets at the Board of Directors' discretion, the Company is not required to sell any of its assets. The Board of Directors and management of the Company intend to continue to consider alternatives on an ongoing basis and pursue the Company's business in the meantime in the normal course and, accordingly, will continue to operate as a going concern for the foreseeable future.

## **1. Basis of preparation:**

### (a) Liquidity Assessment

Liquidity risk is the risk that an entity is unable to fund its assets or meet its financial obligations as they come due. Liquidity risk is managed in part through cash flow forecasting by the Company. While there are uncertainties in assessing future liquidity requirements under normal operating conditions, interest rates and cost inflation have introduced increased uncertainty. The Company monitors forecasts of liquidity requirements to ensure it has the ability to meet operational needs by maintaining sufficient availability of the combination of cash on hand and debt capacity, and to ensure the Company will meet its financial covenants related to mortgages affiliated with wholly-owned assets and mortgages held within investments in joint ventures accounted for under the equity method. Such forecasting involves judgment which takes into consideration current and projected macroeconomic conditions, the Company's cash collection efforts, debt financing and refinancing plans, where applicable, and covenant compliance required under the terms of various mortgage agreements. There is a risk that such liquidity forecasts may not be achieved and that currently available debt financing that matures in the next 12 months may no longer be available to the Company at terms and conditions that are forecasted, or at all.

The Company believes that it will have sufficient available cash on hand to meet its minimum obligations as they come due and to comply with required financial covenants for a period of at least 12 months from December 31, 2025, which may include waivers, cures or other paths for resolution, if necessary. In making this judgment, the Company has prepared a cash flow forecast and mortgage covenant projections with the most significant assumptions in the preparation of such forecast being the ability of properties' underlying operations to generate sufficient cash flows and the continued availability of financing. Management has also identified all near-term debt maturities and ensured adequate measures are underway to address their repayment, replacement or extension.

Notes to Consolidated Financial Statements

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

(b) Statement of compliance:

These consolidated financial statements have been prepared in accordance with IFRS Accounting Standards, as issued by the International Accounting Standards Board. All of the Company's subsidiaries and joint ventures apply and adhere to the same accounting policies.

The Company's accounting policies and methods of application, basis of measurement, and functional and presentation currency remain unchanged as compared to those applied in the consolidated financial statements as at and for the year ended December 31, 2024.

These consolidated financial statements were approved by the Board of Directors of the Company and authorized for issuance on March 18, 2026.

(c) Discontinued operations:

The results of operations of the Company's medical office building segment were previously classified as discontinued operations in these financial statements (note 15). A discontinued operation is a component of the Company's business that either has been disposed of, or is classified as held for sale, and either 1) represents a separate major line of business or geographic area of operations, 2) is part of a coordinated single plan to dispose of a separate major line of business or geographic area of operations or 3) is a subsidiary acquired exclusively with a view to resell. Based on the Company's assessment, the segment had been historically classified as a discontinued operation. As of December 31, 2025, all medical office buildings have been sold.

(e) Principles of consolidation:

(i) Transactions eliminated on consolidation:

The consolidated financial statements comprise the financial statements of the Company and its significant subsidiaries as of December 31, 2025, including Invesque International Holdings Inc., Invesque US Holdings Inc., Invesque Holdings, LP, and project specific limited partnerships. All intercompany transactions and balances are eliminated on consolidation.

(ii) Joint arrangements:

A joint venture is a joint arrangement, whereby the parties that have joint control of the arrangement have rights to the net assets of the arrangement. Joint ventures are included in the Company's consolidated financial statements as investments accounted for under the equity method, whereby the investment is initially recognized at cost and adjusted thereafter for the post-acquisition change in the net assets of the joint venture. The Company's share of joint venture profit or loss is included in the consolidated statements of loss and comprehensive loss for the period.

A joint operation is a joint arrangement, whereby the parties that have joint control of the arrangement have rights to the specific assets and obligations for the liabilities, relating to the arrangement. The consolidated financial statements include the Company's proportionate share of each of the revenue and expenses of joint operations on a line-by-line basis.

(f) Functional and presentation currency:

The consolidated financial statements are presented in U.S. dollars, which is the functional and presentational currency of the Company.

Assets and liabilities of operations having a functional currency other than the U.S. dollar are translated at the rate of exchange at the consolidated statement of financial position dates. Revenue and expenses are translated at average rates for the year, unless exchange rates fluctuated significantly during the year, in which case the exchange rates at the

# INVESQUE INC.

Notes to Consolidated Financial Statements

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

dates of the transactions are used. Gains or losses on translating a foreign operation are included in other comprehensive loss ("OCI") as a component of equity.

Foreign currency transactions are translated into the functional currency using exchange rates prevailing at the date of the transactions. Foreign currency denominated monetary assets and liabilities are translated using the prevailing rate of exchange at the consolidated statement of financial position dates. Gains and losses on translation of monetary items are recognized as general and administrative expenses in the consolidated statements of loss and comprehensive loss.

(g) Use of estimation and measurement uncertainty:

The preparation of the Company's consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. Measurement uncertainty arising from estimates and assumptions that have a significant risk of resulting in a material adjustment in the year ended December 31, 2025 and 2024 are as follows:

(i) Investment properties:

The significant assumptions used when determining the estimated fair value of investment properties either consolidated or held in the Company's joint venture investments are future cash flows over the holding period, terminal capitalization rates and discount rates for each property valued using the discounted cash flow approach. The terminal capitalization rates and discount rates applied are reflective of the characteristics, location and market of each investment property. The future cash flows over the holding period of each investment property are based upon net operating income, which includes contractual lease revenues for triple-net leased properties and projected results of operations for owner-occupied properties.

Management determines the estimated fair value internally utilizing internal financial information, external market data and capitalization rates provided by independent industry experts. As part of Management's internal valuation program, the Company also considers external valuations performed by independent national real estate valuation firms for a cross-section of properties that represent different geographical locations across the Company's portfolio and updates, as deemed necessary, the valuation models to reflect current market data.

(ii) Loans receivable:

In determining the amount of expected credit losses ("ECLs"), the Company's significant assumptions include the assessment of probability of default and loss given default. The determination takes into account different factors and varies by nature of investment.

The Company considers reasonable and supportable information that is relevant and available without undue cost or effort. Management considers past events, current market conditions and reasonable forward-looking supportable information about future economic conditions. In assessing information about possible future economic conditions, management utilized multiple economic scenarios including a base case, which represents the most probable outcome and is consistent with management's view of the financial asset. In considering the lifetime of a loan, the contractual period of the loan, including prepayment, extension and other options is generally used.

The estimation of expected credit losses also includes assumptions about local real estate market conditions, availability and terms of financing, underlying value of the security and various other factors. These assumptions are limited by the availability of reliable comparable market data, economic uncertainty and the uncertainty of future events.

# INVESQUE INC.

Notes to Consolidated Financial Statements

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

(iii) Impairment of property, plant and equipment:

The Company makes a determination at each reporting date if any events have occurred that would indicate property, plant and equipment may be impaired. If impairment indicators exist, management estimates the underlying assets' recoverable amount based on future cash flows and capitalization and discount rates in order to determine whether an impairment loss should be recognized.

(iv) Property taxes receivable:

In determining the amount of expected credit losses on property taxes receivable, the Company's significant assumptions include the assessment of probability of payment, creditworthiness of the tenant, estimated future cash flows of the tenant, anticipated results of pending litigation, the nature of anticipated property disposition transactions, risk of tenant bankruptcy, and various other factors.

(v) Other

Estimates are also made in the determination of the fair value of the Company's profit participation investment (note 5) and include assumptions and estimates regarding future interest rates, the relative creditworthiness of the Company to its counterparties, the credit risk of the Company's counterparties, the estimated future cash flows and discount rates.

(h) Critical judgments:

Significant judgments made in applying the Company's accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements are as follows:

(i) Accounting for leases as lessor:

The Company uses judgment regarding the implications associated with the present value of lease payments, the fair value of assets and the determination of the lease term in assessing the classification of its leases as operating leases, in particular with long-term leases in single operator properties. The Company has determined that all of its leases are operating leases.

(ii) Componentization of property, plant and equipment:

The Company uses judgment regarding the value that is allocated to various components of property, plant and equipment upon initial acquisition or transfer and recognition.

(iii) Loans receivable:

The Company uses judgment in the evaluation of changes in credit risk to determine the staging of the loans receivable. These judgments include changes in circumstances that may cause future assessments of credit risk to be materially different from current assessments, which would require an increase or decrease in the allowance for ECLs.

## 2. Material accounting policies:

(a) Cash:

Cash consists of cash on hand and, from time to time, cash equivalents, which are highly liquid marketable investments with an original maturity date of 90 days or less at their date of purchase and are stated at amortized cost, which approximates fair value.

# INVESQUE INC.

Notes to Consolidated Financial Statements

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

(b) Investment properties:

Investment properties are held to earn rental income or for capital appreciation or both, but not for sale in the ordinary course of business. On acquisition, investment properties are initially recorded at cost, including transaction costs. Subsequent to initial recognition, the Company uses the fair value model to account for investment properties under International Accounting Standard ("IAS") 40, Investment Property. Under the fair value model, investment properties are recorded at fair value, which is determined based on available market evidence, at the statement of financial position date. Related fair value gains and losses are recorded in profit or loss in the period in which they arise.

Subsequent capital expenditures are added to the carrying value of the investment properties only when it is probable that future economic benefits will flow to the property and the cost can be measured reliably.

Investment property is classified as held for sale when the property is available for immediate sale in its present condition subject only to terms that are usual and customary for the sale of investment properties, its sale is highly probable and expected to be completed within one year. Investment property is derecognized when it has been disposed of or permanently withdrawn from use and no future economic benefit is expected from its disposal. Prior to its disposal, the carrying value of the investment property is adjusted to reflect its fair value. This adjustment is recorded as a fair value gain (loss). Any remaining gain or loss arising on de-recognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognized.

(c) Property, plant, and equipment:

Property, plant, and equipment includes land; buildings; and furniture, fixtures and equipment ("FFE"), which are measured at cost less accumulated depreciation and accumulated impairment losses.

Significant parts of the buildings are accounted for as separate components of the property, based on management's judgment of what components constitute a significant cost in relation to the total cost of an asset and whether these components have similar or dissimilar patterns of consumption and useful lives for purposes of calculating depreciation and amortization. Significant components include the structure, roof, electrical/HVAC systems, windows and doors, and exterior landscaping. The cost of replacing a major component of a building is recognized in the carrying amount of the building if it is probable that the future economic benefits embodied within the component will flow to the Company, and its cost can be measured reliably. The carrying amount of the replaced component is derecognized. The costs of ongoing repairs and maintenance of the properties are recognized in profit or loss as incurred.

Depreciation is recorded in profit or loss on a straight-line basis over the useful lives of the assets. Estimated useful lives and residual values were determined based on current facts and experience and take into consideration the anticipated physical life of the asset and current and forecasted demand. The rates and methods used are reviewed annually at year end to ensure they continue to be appropriate, and are also reviewed in conjunction with impairment testing. The following are the estimated maximum useful lives of existing property, plant, and equipment:

---

Components:	
Building - Structure	25-39 years
Building - Roof	15-25 years
Building - Electrical/HVAC systems	15-25 years
Building - Windows and doors	10-15 years
Building - Exterior landscaping	10-15 years
Furniture, fixtures, and equipment	2-5 years

---

Gains/losses on disposition of property, plant, and equipment are recognized in profit or loss in accordance with the

# INVESQUE INC.

Notes to Consolidated Financial Statements

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

requirements for determining when applicable performance obligations have been satisfied under IFRS 15, Revenue from Contracts with Customers ("IFRS 15").

(d) Impairment of property, plant, and equipment:

The carrying amount of the Company's property, plant, and equipment is assessed at each reporting date to determine if any events have occurred that would indicate the assets may be impaired. If any such indication exists, then the asset's recoverable amount is estimated and an impairment loss is recognized immediately in profit or loss for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount of an asset is the higher of (a) fair value less costs to sell, and (b) value in use. The determination of recoverable amounts can be significantly impacted by estimates related to current market valuations, current and future economic conditions in the geographical markets of the assets, and management's strategic plans within each of its markets.

(e) Assets held for sale:

Assets, or disposal groups comprising assets and liabilities, are categorized as held-for-sale when the asset or disposal group is available for sale in its present condition, and the sale is highly probable. For this purpose, a sale is highly probable if management is committed to a plan to achieve the sale; there is an active program to dispose of the assets of the disposal group; the asset or disposal group is being actively marketed at a reasonable price; the sale is anticipated to be completed within one year from the date of classification; and it is unlikely there will be changes to the plan. Immediately before classification as held-for-sale, the assets, or components of the disposal group are remeasured in accordance with the Company's accounting policies and are subsequently measured at the lower of their carrying amount and fair value less costs of disposal. Impairment losses on initial classification as held-for-sale and subsequent gains or losses on remeasurement are recognized in profit or loss. Gains are not recognized in excess of any cumulative impairment loss until the completion of sale.

(f) Fair value measurement:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- (i) in the principal market for the asset or liability; or
- (ii) in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability assuming that market participants act in their economic best interests.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 - valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

# INVESQUE INC.

Notes to Consolidated Financial Statements

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

Level 3 - valuation techniques for which the lowest level input that is significant to the fair value measurement is not observable.

For assets and liabilities that are recognized in the consolidated financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of the fair value disclosures included herein, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the associated level of the fair value hierarchy as explained above.

(g) Financial instruments:

Financial instruments are generally measured at fair value on initial recognition. The classification and measurement of financial assets consists of the following categories: (i) measured at amortized cost, (ii) FVTPL, or (iii) fair value through other comprehensive income ("FVTOCI"). Financial assets classified at amortized cost are measured using the effective interest method. Financial assets classified as FVTPL are measured at fair value with gains and losses recognized in the consolidated statements of loss and comprehensive loss. Financial assets classified as FVTOCI are measured at fair value with gains or losses recognized through other comprehensive income (loss), except for gains and losses pertaining to impairment or foreign exchange recognized through profit or loss.

The classification and measurement of financial liabilities consists of the following categories: (i) measured at amortized cost and (ii) FVTPL. Financial liabilities classified at amortized cost are measured using the effective interest method. Financial liabilities classified as FVTPL are measured at fair value with changes in fair value attributable to changes in the credit risk of the liability presented in other comprehensive income, and the remaining amount of change in fair value presented in the consolidated statements of loss and comprehensive loss.

The following summarizes the Company's classification of financial instruments:

<b>Financial assets and liabilities</b>	<b>Measurement</b>
Cash	Amortized cost
Tenant and other receivables	Amortized cost
Loans receivable	Amortized cost/FVTPL
Accounts payable and accrued liabilities	Amortized cost
Accrued real estate taxes	Amortized cost
Mortgages payable	Amortized cost
Debentures	Amortized cost

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expire or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. The Company derecognizes a financial liability when, and only when, the Company's obligations are discharged, canceled or they expire. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized through profit or loss.

The Company adopted the practical expedient to determine ECLs on tenant and other receivables using a provision matrix based on historical credit loss experiences adjusted for current and forecasted future economic conditions to estimate lifetime ECL. Impairment losses are recorded in the consolidated statements of loss and comprehensive loss with the carrying amount of the financial asset or group of financial assets reduced through the use of impairment allowance accounts.

Transaction costs other than those related to financial instruments classified as FVTPL, which are expensed as

# INVESQUE INC.

Notes to Consolidated Financial Statements

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

incurred, are capitalized to the carrying amount of the instrument and amortized using the effective interest method. These costs include discounts or premiums relating to assumed debt, fees and commissions paid to agents, brokers, advisers, lenders and insurers, transfer taxes and duties.

The effective interest method is a method of calculating the amortized cost of a financial asset or liability and of allocating interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial asset or liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

Financial assets and financial liabilities are offset, and the net amount presented in the consolidated statements of financial position when, and only when, the Company has a legal right to offset the amounts and intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

i. Debentures:

At the date of issuance, the debentures were recognized at their estimated fair value, which was deemed to be the same as the par value. Any directly attributable transaction costs, interest, losses and gains relating to this financial liability were recognized in profit or loss.

ii. Impairment of financial assets:

The Company recognizes loss allowances for ECL on financial assets measured at amortized cost. The Company applies a three-stage approach to measure allowance for credit losses. The loss allowance for performing loans which have not experienced a significant increase in credit risk since initial recognition (Stage 1) is equal to a year of expected credit losses. The loss allowance for loans which have experienced a significant increase in credit risk since initial recognition (Stage 2) or are credit impaired (Stage 3) equals lifetime expected credit losses.

The determination of a significant increase in credit risk takes into account different factors and varies by nature of investment. The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due or certain criteria are met which are specific to the individual borrower based on judgment. The Company considers a financial asset to be credit impaired when the borrower is more than 90 days past due and when there is objective evidence that there has been a deterioration of credit quality to the extent the Company no longer has reasonable assurance as to the timely collection of the full amount of principal and interest or when the Company has commenced enforcement remedies available to it under its contractual agreements.

Loss allowances for ECLs are probability-weighted estimates of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e., the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive) and incorporate significant assumptions including the probability of default as well as the estimated loss given default. ECLs are discounted at the effective interest rate of the financial asset.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument. The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

The determination of ECLs of a collateralized impaired loan reflects the expected realization of the underlying security, net of expected costs and any amounts legally required to be paid to the borrower.

When determining the allowance for ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. Management considers past events, current market conditions and reasonable forward-looking supportable information about future economic conditions. In assessing information about possible future economic conditions, management utilized multiple economic scenarios including a base case, which represents the most probable outcome and is

# INVESQUE INC.

## Notes to Consolidated Financial Statements

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

consistent with management's view of the financial asset. In considering the lifetime of a loan, the contractual period of the loan options is generally used.

The estimation of ECLs also includes assumptions about local real estate market conditions, availability and terms of financing, underlying value of the security and various other factors. These assumptions are limited by the availability of reliable comparable market data, economic uncertainty and the uncertainty of future events. Accordingly, by their nature, estimates of impairment are subjective and may not necessarily be comparable to the actual outcome. Should the underlying assumptions change, the estimated future cash flows could vary.

### iii. Derivative instruments:

The Company has used and can use derivative financial instruments to manage interest rate risk exposures. Embedded derivatives are separated from the host contract and accounted for separately if the economic characteristics and risks of the host contract and the embedded derivative are not closely related.

Derivative financial instruments, including embedded derivatives that must be separately accounted for, are initially valued at fair value; attributable transaction costs are recognized in profit or loss as incurred. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are recognized immediately in profit or loss. As of December 31, 2025, the Company does not have any active derivative contracts.

### (h) Revenue recognition:

The Company accounts for its leases as operating leases given that it has retained substantially all of the risk and benefits of ownership.

#### i. Lease revenue from third party operators and commercial tenants:

The Company earns revenue from tenants, the nature of which is from various sources consisting of rent earned under lease agreements, property tax and operating cost recoveries and other incidental income. Revenue from lease components is recognized on a straight-line basis over the lease term and includes the recovery of property taxes and insurance. Revenue recognition commences when a tenant has the right to use the premises and is recognized pursuant to the terms of the lease agreement. Payments are due at the beginning of each month and any payments made in advance of scheduled due dates are deferred.

Revenue related to the services component of the Company's leases is accounted for in accordance with IFRS 15. These services consist primarily of utilities, cleaning and property maintenance costs for which the revenue is recognized over time, typically as the costs are incurred, which is when the services are provided.

#### ii. Resident leases

The Company charges for the rental of accommodation and care services provided to residents. Base rent amounts are allocated to lease components based on relative stand-alone selling prices. The stand-alone selling prices of the rental component is determined using an adjusted market assessment approach and the stand-alone selling price of the care services components are determined using both adjusted market assessment and expected cost plus a margin approaches.

Revenue from rental components is recognized on a straight-line basis over the lease term. Revenue recognition commences when a resident has the right to use the property and revenue is recognized pursuant to the terms of the lease agreement. Payments are due at the beginning of each month and any payments made in advance of scheduled due dates are deferred.

# INVESQUE INC.

Notes to Consolidated Financial Statements

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

Revenue related to the care service components of the Company's leases is accounted for in accordance with IFRS 15. These services consist primarily of the provision of meals, nursing services, housekeeping and laundry services, programs, amenities and the recovery of utilities and property maintenance costs and are recognized over time, typically on a monthly basis, which is when the services are provided. Payments are due at the beginning of each month and any payments made in advance of scheduled due dates are recorded as contract liabilities.

- iii. Lease revenue from entities in which the Company has a joint venture interest:

The Company has earned revenue under lease arrangements with operating entities that hold underlying properties which are jointly owned and operated with Autumnwood Lifestyles Inc. ("Autumnwood") (note 8), a third party, and reported on a proportionately consolidated basis. The leases are accounted for as operating leases and lease revenue is recognized on a straight-line basis over the term of the underlying leases. Additional lease revenue is recognized when the Company earns distributions from the expansion operations, as defined in accordance with the terms of operating agreements. As of December 31, 2025, the Autumnwood properties have been sold as part of the sale of a subsidiary (note 8).

## (i) Leases

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company uses the definition of a lease in IFRS 16.

- i. As a lessee:

At commencement or on modification of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property, the Company has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term and is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, if the Company changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

# INVESQUE INC.

Notes to Consolidated Financial Statements

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

The Company presents the right-of-use assets in "other assets" while lease liabilities are recorded separately and presented on the statement of financial position as "other liabilities".

ii. Short-term leases and leases of low value assets:

The Company has elected not to recognize right-of-use assets and lease liabilities for leases of low-value assets and short-term leases, including IT equipment. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

iii. As a lessor:

At inception or on modification of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices. The Company has determined that when it acts as a lessor, its leases do not transfer substantially all of the risks and rewards incidental to ownership of the underlying assets and as a result they are classified as operating leases.

The Company has recognized lease payments received under operating leases as income on straight-line basis over the lease term.

(j) Employee benefits:

i. Short-term benefits:

Short-term employee benefit obligations, including vacation and bonus payments, are measured on an undiscounted basis and are expensed as the related service is provided. Liabilities are recognized for the amounts expected to be paid within 12 months as the Company has an obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably. Short-term employee benefits are recorded in accounts payable and accrued liabilities.

ii. Share-based payment plans:

The Company has a Deferred Share Incentive Plan (note 22) for its employees and directors. Under this plan cash-settled shares are fair-valued and changes in the amount payable are recognized through profit or loss with a corresponding change in liabilities. The awards are fair-valued on the basis of the share price at each reporting period and at the settlement date and the change in fair value on the amortized share-based compensation expense is recognized as compensation expense. During 2024, the Board of Directors elected to discontinue the deferred share incentive plan.

The grant-date fair value of equity-settled shares are amortized over the applicable vesting period as share-based compensation expense with a corresponding change in equity. The awards are valued based on the grant date fair value.

(k) Levies:

In accordance with IFRS Interpretations Committee ("IFRIC") 21, Levies ("IFRIC 21"), for its properties located in the United States, the Company recognizes the full amount of annual property tax liabilities at the point in time when the realty tax obligation is imposed and recognizes property tax recoveries at the time the tax obligation is satisfied.

(l) Income taxes:

Income tax expense comprises current and deferred tax. Tax is recognized in profit or loss except to the extent it relates to a business combination, or items recognized directly in equity or other comprehensive income.

# INVESQUE INC.

Notes to Consolidated Financial Statements

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustments to tax payable or receivable in respect of previous years. It is measured using rates enacted or substantively enacted at the reporting date. Current tax also includes any tax arising from dividends.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for:

- (i) Temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- (ii) Temporary differences related to investments in subsidiaries and associates to the extent that the Company is able to control the timing of reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- (iii) Taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable income will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amounts of its assets and liabilities.

Deferred tax assets and liabilities are offset only if certain criteria are met.

Judgment is required to assess the interpretation of tax legislation when recognizing and measuring current and deferred tax assets and liabilities. The impact of different interpretations and applications could potentially be material. The Company recognizes a tax benefit from an uncertain tax position when it is probable that the position will be sustained upon examination, including resolutions of any related appeals or litigation processes, on the basis of the technical merits. If it is not probable that the uncertain tax treatment will be accepted, the tax uncertainty is measured based on the most likely amount of expected value, depending on whichever method better predicts the resolution of the uncertainty.

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilized. Management's estimate of future taxable profits and the recognition of deferred tax assets are reviewed at each reporting date and deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

(m) IFRS standards and amendments issued but not yet effective:

- (i) Amendments to IFRS 9 and IFRS 7

In May 2024, the IASB issued amendments to IFRS 9 and IFRS 7 that relate to classification of financial assets and accounting for settlement by electronic payments in the context of the classification and measurement requirements in IFRS 9. The potential impact may include, but is not limited to, a change in timing of recognition and derecognition of financial instruments in certain situations in which settlement of a financial instrument with another takes more than a day. Similarly, a change may be required for entities that derecognize both trade payable and cash on the payment initiation date even if the creditor has not yet received the cash. However, an accounting policy choice is available for derecognizing certain financial liabilities that are settled using an electronic payment system subject to certain criteria being met. The amendments will be effective January 1, 2026. The Company is currently assessing the impact of the new standard, but it is not expected to have a significant impact on the Company's consolidated financial

# INVESQUE INC.

Notes to Consolidated Financial Statements

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

statements.

(ii) IFRS 18: Presentation and Disclosure in Financial Statements to replace IAS 1: Presentation of Financial Statements and applies to annual reporting periods beginning on or after January 1, 2027. The new standard introduced the following key new requirements:

1. Entities are required to classify all income and expenses into five categories in the statement of profit or loss, namely the operating, investing, financing, discontinued operations and income tax categories. Entities are also required to present a newly-defined operating profit subtotal. Entities' net profit will not change.
2. Management-defined performance measures (MPMs) are disclosed in a single note in the financial statements
3. Enhanced guidance is provided on how to group information in the financial statements

In addition, all entities are required to use the operating profit subtotal as the starting point for the statement of cash flows when presenting operating cash flows under the indirect method. The Company is in the process of assessing the impact of the new standard, particularly with respect to the structure of the Company's statement of profit or loss, the statement of cash flows and the additional disclosures required for MPMs. The Company is also assessing the impact on how information is grouped in the financial statements, including items currently labelled as "other".

# INVESQUE INC.

Notes to Consolidated Financial Statements

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

### 3. Tenant and other receivables:

Tenant and other receivables and corresponding allowance balances are as follows:

	December 31, 2025	December 31, 2024
Tenant and real estate receivables, gross	\$ 4,236	\$ 13,925
Allowance for uncollectible receivables	(2,128)	(6,947)
Tenant and other receivables, net	\$ 2,108	\$ 6,978

The movement in the allowance in respect of tenant and other receivables during the year ended December 31, 2025 was as follows:

Balance, December 31, 2024	\$	6,947
Remeasurement of allowance related to tenant receivables and real estate tax receivables		1,497
Balances attributable to disposed assets (note 14)		(4,324)
Fully reserved amounts written-off		(1,642)
Collections — recoveries		(350)
Balance December 31, 2025	\$	2,128

The Company determines estimated allowances on a tenant-by-tenant basis and considers tenant payment history, past default experiences, actual and expected insolvency filings, tenant abandonment and certain tenant disputes. The change in allowance for the year ended December 31, 2025 is primarily due to the disposal of 20 properties and the Company's ownership in the management company operated by Commonwealth Senior Living (collectively, the "Foxhound portfolio") (note 14), which included the sale of working capital amounts, the write-off of fully reserved balances at sold portfolios, increased allowance due to the addition of tenant balances at acquired owner-occupied properties in 2025, partially offset by individual tenant recoveries.

Foxhound GSA Propco Holdings, LLC <sup>(6)</sup>	Loan receivable	7,500	—	June 3, 2025	June 2, 2028	7.5 %	— %
Meteorite Camillus, LLC <sup>(7)</sup>	Loan receivable	2,500	—	December 18, 2025	December 18, 2027	8.3 %	— %
Accrued current and non-current interest		992	586				
Allowance for expected credit losses on loans receivable		(9,805)	(5,264)				
Carrying value of loans recorded at amortized cost		\$ 16,639	\$ 8,821				
Javelina Ventures, LLC	Loan receivable - FVTPL	—	2,604	December 31, 2018	<sup>(8)</sup>	5.0 %	— %
Carrying value of loans receivable		\$ 16,639	\$ 11,425				
Less current portion		666	3,587				
Non-current portion		\$ 15,973	\$ 7,838				

(1) Maturity date was the earlier of March 1, 2025, the date at which the existing debt secured by the property is refinanced, or upon termination of the management agreement. The loan was paid in full on April 4, 2025.

(2) This loan has been fully reserved for, however the Company continues to pursue settlement or partial settlement of the loan receivable. During the fourth quarter of 2025, the Company received \$742 of payments on the matured loan, which included the exchange of forfeited common shares of the Company previously held by the borrower, which were subsequently retired (note 16).

(3) In conjunction with sale transactions of skilled nursing facilities in Illinois, the Company forgave this loan as incentive for the buyer to acquire the underlying properties.

(4) These loans were issued as seller financing notes as part of a sale transaction of skilled nursing facilities in Illinois. The notes are unsecured but feature corporate guarantees from a credit worthy counterparty.

(5) In 2025, the Company repaid 100% of the Terra Bluffs joint venture mezzanine loan, whereas the Company's obligation, consistent with its joint venture interest, was approximately 80% of the previously outstanding loan. The amount of the corresponding loan represents the other venturer's portion of the settled mezzanine loan and is secured by pledges of the equity ownership held by the minority joint venture partners. The maturity date is the earlier of a refinancing of the senior loan affiliated with the joint venture or a sale of the underlying property.

(6) See note 13.

(7) This loan is a first mortgage security loan that was issued as seller financing in the sale of the final medical office building (note 15).

(8) The repayment of this loan is pursuant to the Javelina Ventures Operating Agreement in which net available cash from operations and proceeds from property recapitalization will be used to repay the principal and accrued interest on this loan with no fixed maturity date. As of December 31, 2025 the Company assigned a \$nil value to the loan as a result of a collectability assessment based on historical and forecasted operational performance trends at the underlying communities.

Loans receivable and associated allowance for losses on loans receivable accounted for at amortized cost as at December 31, 2025 are as follows:

Total allowance for credit losses as at December 31, 2025	\$ 167	\$ —	\$ 9,638	\$ 9,805

For the year ended December 31, 2025, a recovery of \$2,068, (year ended December 31, 2024 - \$1,759 loss) was recorded as part of the remeasurement in the allowance for credit losses on loans and interest receivable in the consolidated statements of loss and comprehensive loss. As of December 31, 2025, the Company's assessment of recoverability for the Morrell Hulse loan resulted in an increased allowance to 100% of the balance and a transfer to stage 3 due to continued nonpayment of monthly interest, the lack of security, and an assessment of the overall credit risk. In addition, the

# INVESQUE INC.

Notes to Consolidated Financial Statements

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

Company's assessment for the Memory Care America, LLC loan resulted in an increased allowance to 100% of the balance owing due to continued nonpayment of interest or principal up to and after the loan maturity date. However, the Company continues to pursue collection of both loans. The Company maintains a policy for stage 3 loans receivable whereby it assesses the expectation and likelihood of recovery for each loan to determine whether the gross carrying amount of the loan is to be completely written off. In this assessment the Company considers unique facts and circumstances of each loan, such as ongoing legal pursuits and historical collection efforts involving the counter party under different circumstances. The Company makes the final determination based on the best available information at the time.

In December 2025, the Company received \$3,700 related to a loan receivable from Mainstreet Investment Company, which had previously been fully written off. The receipt of funds has been included as a contra-allowance within allowance for expected credit losses in the consolidated statement of loss and comprehensive loss.

For the year ended December 31, 2025, a loss of \$2,724 (year ended December 31, 2024 - \$nil) was recorded in the consolidated statements of loss and comprehensive loss due to a change in the estimated fair value of the loan receivable due from Javelina Ventures LLC.

## 5. Other assets:

Amortization of tenant inducements	—	(120)
Sales of income properties	(16)	(166,837)
Transferred to property, plant and equipment (note 14)	(1)	(9,250)
Foreign currency translation	—	3,811
Balance, December 31, 2025	—	\$ —

As of December 31, 2025, the Company's only remaining investment properties are held within the joint venture investment portfolio (note 8).

Throughout 2024 and 2025, the Company executed sale contracts and eventual dispositions of investment properties. When an investment property is under contract to sell, the Company adjusts the previously reported carrying value to the agreed upon sale price. Accordingly, fair value adjustments to investment properties relating to these dispositions totaled a decrease, or charge, of \$35,956 for the year ended December 31, 2025.

Capital expenditures include costs related to projects (\$371 total for the year ended December 31, 2025) at four properties in Canada that were jointly owned and proportionately consolidated in these financial statements before being sold in the fourth quarter of 2025.

On June 18, 2025, the Company acquired the operations at a property in Zachary, Louisiana, representing the property transferred to property, plant and equipment. The property was previously under a triple-net lease and reported as investment property under IAS 40. At the time of acquisition, a purchase and sale agreement was executed to sell the property by the end of the third quarter of 2025. Therefore, the carrying value of the property and operations was adjusted to the anticipated sale price and was subsequently sold in September 2025 (note 14).

On August 15, 2025, the Company sold two skilled nursing facilities in Illinois for a total sale price of \$23,686, of which \$627 from a prior sale was applied. Sale proceeds in excess of closing costs were used to pay down the remaining balance of

Years ended December 31, 2025 and 2024

the corporate credit facility (note 8). The Company issued two loans receivable totaling \$3,038 principal to the buyer as part of the sales transactions (note 4).

On December 23, 2025, the Company sold a subsidiary which owned interests in four seniors housing investment properties operated by Autumnwood (notes 8 and 14) in Canada for Canadian \$31,000. Sale proceeds in excess of closing costs totaling were retained by the Company for working capital purposes.

On January 31, 2024, the Company sold a property in Summerville, South Carolina for a sale price of \$3,975. Sale proceeds in excess of closing costs were used to pay down a portion of the corporate credit facility and received and held for use in operations by the Company. The property was classified as held for sale as of December 31, 2023, with a carrying value of \$3,962.

# INVESQUE INC.

Notes to Consolidated Financial Statements

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

On October 15, 2024, the Company sold seven seniors housing properties in Maryland (3), Virginia (3) and Tennessee (1) that were previously operated by Commonwealth Senior Living for a total sale price of \$65,408. Sale proceeds in excess of closing costs were used to partially pay off property level mortgages associated with six of the properties, to further reduce borrowing under the corporate credit facility, and retained by the Company to continue to maintain sufficient working capital. The properties were classified as held for sale as of September 30, 2024. Impairment expense of \$1,406 was recorded in 2024 in respect of a Maryland property to reflect the estimated recoverable amount of the asset. An additional impairment expense of \$926 was recorded in the year to reduce the carrying value to the approximate sales price less estimated closing costs.

The Company recorded impairment of \$1,136 in the fourth quarter of 2025 in respect of a memory care facility in Arkansas due to declining operating performance of the underlying property operations. To arrive at the estimated recoverable amount of the property, the Company used an internal valuation method containing assumptions regarding a terminal capitalization rate, discount rate and future cash flows of the facility.

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

## 8. Joint arrangements:

As at December 31, 2025, the Company's joint arrangements are as follows:

Joint arrangement	Number of properties	Location	Company ownership	Investment
Heritage Newtown	1	United States	80 %	Joint venture <sup>(1)</sup>
Heritage Harleysville	1	United States	90 %	Joint venture <sup>(1)</sup>
Heritage Lansdale	1	United States	90 %	Joint venture <sup>(1)</sup>
Terra Bluffs	1	United States	80 %	Joint venture <sup>(1)</sup>

(1) These joint venture arrangements have been structured through separate legal entities. The joint venture owns an interest in separate legal entities which own the real estate and operations.

The Company has entered into a number of joint arrangements for the purpose of jointly owning and operating certain of its seniors housing investments as detailed in the table above.

Prior to December 23, 2025, the Company owned a 29% direct beneficial interest in the investment properties of the Invesque-Autumnwood Landlord entities ("landlords") and with Autumnwood was jointly obligated for the related mortgages for a portfolio of four properties. These properties were classified as joint controlled operations and were accounted for under the proportionate consolidation method. The Company's 29% interest in the operations of these investment properties was held through separate legal entities (collectively referred to as "Invesque-Autumnwood Operator"), which under IFRS 11, Joint arrangements, were classified as joint ventures and were accounted for using the equity method. Invesque-Autumnwood Operator leased the real estate from the related party landlords under their respective lease agreements. These leases were for three-year periods, with six automatic renewals every third anniversary for a total of 21 years. The Company's proportionate share of the landlords' lease receipts totaling \$4,547, for the year ended December 31, 2025 (year ended December 31, 2024 - \$3,911), are reported as lease revenue from joint ventures in the statements of loss and comprehensive loss. Invesque-Autumnwood Operator's lease expense in connection with these properties is included in the share of loss from joint ventures. On December 23, 2025, the Company sold its interests in investment properties and the operations (note 14).

As of December 31, 2025, The Company has an interest in four seniors housing and care properties (the Heritage and Terra Bluffs properties) in the United States in which it also owns an interest in the operations at those properties through joint arrangements. In these joint arrangements, the Company owns an interest in real estate and operations through separate legal entities at each of the properties and has management agreements in place to provide for the day-to-day operations resulting in joint control of the interests in both the real estate and operations. Each of these joint arrangements are accounted for as joint ventures using the equity method and the Company's share of net loss is included in loss from joint ventures in the consolidated statements of loss and comprehensive loss.

On December 11, 2025, the Company sold four properties associated with joint ventures operated by Heritage Senior Living ("Heritage") for a sale price of \$56,980. Sale proceeds in excess of closing costs totaling were used to settle mortgages (\$50,218) affiliated with the properties and retained by the joint ventures (\$6,193) for final distributions to be determined at a later time.

The following tables summarize the information about the Company's investment in joint ventures, which have been accounted for under the equity method:

	Year ended December 31,	
	2025	2024
Cash contributions to joint ventures	\$ 16,081	\$ 2,387
Distributions received from joint ventures	\$ 2,170	\$ 1,553

# INVESQUE INC.

Notes to Consolidated Financial Statements

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

The increase in cash contributions to joint ventures in 2025 as compared to 2024 was primarily due to the repayment of debts encumbering the properties such as mortgages and accrued working capital liabilities.

	December 31, 2025		December 31, 2024

Notes to Consolidated Financial Statements

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

Related party transactions occur between the Company and its interests in joint ventures. These related party transactions are in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to between the parties. Except as disclosed elsewhere in these consolidated financial statements, the related party balances are included in other assets and lease revenue from joint ventures.

As of December 31, 2025, the Company, through its joint venture arrangements, used an internal valuation process to value its joint venture investment properties. The Company maintains a policy whereby third party appraisers are engaged to prepare valuations on a portion of the portfolio such that one third of the portfolio is valued externally each year, and every property in the portfolio is valued externally at least once every five years. Management considers, but does not rely on, the data used in external valuations for its internal valuation.

Acquired investment properties are initially measured at cost, including directly attributable acquisition costs, when the transactions are deemed to be asset acquisitions. Subsequent to initial recognition, investment properties are measured at fair value, determined based on available market evidence. The Company, through its joint venture arrangements, uses alternative valuation methods such as the direct capitalization income approach or the discounted cash flow approach (Level 3 inputs). The estimated fair value of investment properties reflects rental income from current leases and assumptions about rental income from future leases in light of current market conditions.

Capital expenditures include costs related to the physical properties (\$946 total for the year ended December 31, 2025) at the four remaining joint ventures.

The Company, through its joint venture arrangements, continues to review terminal capitalization rates and discount rates as well as its and future cash flows over the investment holding period. Once total valuation is established, the Company utilizes distribution waterfalls, when applicable and as prescribed in the relevant joint venture agreements, to determine the allocated values between the Company and its joint venture partners. The carrying value for the Company's joint venture investment properties reflects its best estimate for the highest and best use as at December 31, 2025. The minimum, maximum and weighted average terminal capital rates are 7.00%, 7.50% and 7.33%, respectively. The minimum, maximum and weighted average discount rates are 9.25%, 9.75% and 9.49%, respectively. If the Company applied a 5% increase/decrease to stabilized net operating income used in the valuation estimation process, it would result in an increase/decrease of \$5,060 to the Company's portion of the investment property balance.

The estimated fair value of investment properties valued using the discounted cash flow approach is most sensitive to changes in terminal capitalization rates and discount rates. Changes in the terminal capitalization rates and discount rates would result in the following changes in the fair value of the Company's portion of investment properties as of December 31, 2025, valued using this approach:

		Change in discount rate ("IRR")		
		(0.25)%	— %	0.25 %
Change in terminal capitalization rate ("TCR")	(0.25)%	\$ 3,627	\$ 2,562	\$ 1,511
	— %	\$ 1,035	\$ —	\$ (1,022)
	0.25 %	\$ (1,389)	\$ (2,397)	\$ (3,392)

Notes to Consolidated Financial Statements

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

The following table summarizes information related to mortgages payable accounted for by the Company's joint ventures at 100%:

	December 31, 2025		December 31, 2024	
Mortgages at fixed rates:				
Mortgages (principal)	\$	20,397	\$	33,615
Interest rates		6.99 %		6.99% to 14.50%
Weighted average interest rate		6.99 %		8.58 %
Mortgages at variable rates:				
Mortgages (principal)	\$	52,262	\$	97,351
Interest rates		SOFR plus 2.50% to SOFR plus 3.50%		SOFR plus 2.05% to SOFR plus 4.50%
Weighted average interest rate		6.56 %		6.97 %
Blended weighted average rate		6.68 %		7.38 %

Certain of the mortgages payable contain financial and non-financial covenants that are subject to quarterly and annual compliance assessments. At December 31, 2025, the partnership between the Company and Parker EREP HDG, LLC (the "Parker partnership") did not comply with a debt service coverage covenant requirement related to a loan agreement held in a joint venture arrangement with Terra Bluffs involving the Parker property ("JV Group #3"). However, the Parker partnership obtained a loan modification agreement on March 4, 2026 from the lender that set aside the debt service coverage requirement for December 31, 2025. The modification requires an interim debt service coverage ratio covenant of 1.0x to be achieved as of June 30, 2026, subsequent to which the ratio reverts to the previous loan covenant of 1.2x. The Parker partnership has guaranteed the payment of amounts due under the mortgage with the lender. The outstanding amount of the mortgage at December 31, 2025 was \$20,397, which is not reflected in the Company's consolidated liabilities at December 31, 2025. The mortgage was otherwise classified as current as of December 31, 2025. In addition, the Company did not comply with net operating income year-end requirements related to the mortgage held in the Lansdale joint venture. However, the loan agreement features a cure allowing the debt reserve in the form of restricted cash to be applied as principal payments as and when needed to achieve compliance. At December 31, 2025, the Company was in compliance with all other debt covenants. The Company expects to satisfy the mortgage covenant requirements in 2026 as stipulated, which may include waivers, consideration of certain cure periods or further paydowns of principal amounts.

## 9. Credit facilities:

The credit facilities are recorded net of loan fees, which are capitalized as incurred, and amortized as part of finance cost over the terms of the related loans using the effective interest rate method.

		Borrowing rate at			Borrowing rate at	
	December 31, 2025	December 31, 2025	December 31, 2024	December 31, 2024	December 31, 2024	December 31, 2024
Credit Facility	\$	—	— %	\$	44,975	7.43 %
Commonwealth Credit Facility		—	— %		174,711	5.76 %
Finance costs, net		—	—		(371)	—
Carrying value	\$	—	— %	\$	219,315	6.10 %
Less current portion		—			219,315	
Non-current portion	\$	—		\$	—	

The corporate Credit Facility was settled in conjunction with the sales of investment properties in August 2025 and the proceeds therefrom (note 5). The Commonwealth Credit Facility was settled in conjunction with the sale of the Foxhound portfolio and the proceeds therefrom (note 14). Lenders of settled facilities have released the Company from all requirements and covenants.

## 10. Mortgages payable:

Mortgages payable consist of the following as at:

	December 31, 2025		December 31, 2024	
Mortgages payable	\$	6,133	\$	149,217
Mark-to-market adjustment, net		—		182
Finance costs, net		(61)		(1,175)
Carrying value	\$	6,072	\$	148,224
Less current portion		—		73,009
Non-current portion	\$	6,072	\$	75,215

Mortgages payable is a first charge mortgage secured and collateralized by property, plant and equipment with a carrying value of \$9,736 at December 31, 2025. The mortgage payable is an interest-only loan with the principal due at maturity on April 10, 2027.

Christiansburg Mortgage Rate Cap <sup>(4)</sup>	July 1, 2028	SOFR capped at 2.00%	—	—	—	(106)	(374)
Merchants Bank of Indiana Mortgage Rate Cap <sup>(5)</sup>	June 10, 2025	SOFR capped at 2.00%	—	—	78	(3)	(1,287)
Carrollton Mortgage Swap <sup>(6)</sup>	August 5, 2026	SOFR fixed at 5.02%	—	—	(47)	4	43
Wesbanco Mortgage Swaps <sup>(6)</sup>	May 10, 2029	SOFR fixed at 3.64%	—	—	224	(313)	224
Net carrying value and net fair value adjustments				\$ —	\$ 543	\$ (706)	\$ (3,410)
Less current portion				—	366		
Non-current portion				\$ —	\$ 177		
Derivative instruments asset				\$ —	\$ 590		
Derivative instruments liability				—	(47)		
				\$ —	\$ 543		

(1) The interest rate swap was contracted effective December 29, 2023 and terminated on February 26, 2024.

(2) The interest rate swap matured on July 31, 2024.

(3) In May 2024, August 2024, November 2024 and February 2025 interest rate swaps with three-month maturities we re-entered into for total premium costs of \$2,485. The premium obligations resulting from swaps are included as part of finance costs reported in the period. The swap was ultimately settled in conjunction with the disposition of the Foxhound portfolio (note 14).

(4) The interest rate cap consisted of an interest rate spread ceiling of 2.00% and a base rate of 2.45%. In July 2024 the interest rate cap was extended 48 months for a cost of \$895. The instrument expired in conjunction with the sale of the Foxhound portfolio (note 14) and the remaining carrying value was recorded as part of the gain or loss on disposition.

(5) The interest rate cap was purchased in conjunction with a mortgage refinance and consisted of an interest rate spread ceiling of 2.00% and a base rate of 3.50%. The instrument matured on June 10, 2025.

(6) The instruments expired in conjunction with the sale of the Constant Care portfolio (note 14).

Years ended December 31, 2025 and 2024

## 14. Dispositions and disposal groups classified as assets held for sale:

Throughout 2024, the Company executed purchase and sale agreements for three investment properties in New York. On April 9, 2025, the Company closed the sale of one of the properties for a sale price of \$25,100 before closing costs. Sale proceeds in excess of closing costs were used to pay down the mortgage affiliated with the property (\$17,885 principal balance) and the residual (approximately \$7,312) was retained by the Company for working capital purposes. On July 14, 2025, the Company closed the sale of another of the properties, previously classified as held for sale, for a sale price of \$5,800 before closing costs. Sale proceeds in excess of closing costs were used to settle the mortgage affiliated with the property (\$3,140 principal balance) and the residual (approximately \$2,701) was retained by the Company for working capital purposes. On September 16, 2025, the Company closed the sale of the third property for a sales price of \$4,958 before closing costs. Sale proceeds in excess of closing costs were used to pay down the mortgage affiliated with the property (\$4,863 principal balance).

In the second quarter of 2024, the Company executed purchase and sale agreements with the intent to sell eight properties operated by Commonwealth Senior Living. On October 15, 2024, the sale of seven of the eight properties closed. The remaining asset was classified as held for sale as of December 31, 2024, and was sold on October 1, 2025 for \$6,839.

On April 29, 2025, the Company executed a purchase and sale agreement to sell ten memory care assets operated by Constant Care Management Company for a total sale price of \$83,204. On July 25, 2025, the Company sold 10 properties, previously classified as held for sale. Sale proceeds in excess of closing costs were used to pay down mortgages affiliated with eight of the properties (\$49,766 total principal balance) and the residual (approximately \$16,058) was retained by the Company for working capital purposes. We note that two of the properties were unencumbered and had no related mortgages.

On June 3, 2025, the Company sold the Foxhound portfolio for a sale price of \$309,000, subject to working capital contingencies. The sale of the portfolio resulted in the settlement of the Commonwealth credit facility (\$173,607 principal), all underlying mortgages payable (\$45,054 principal) and the Commonwealth preferred unit liability (\$58,606). As part of the sale, the Company issued a \$7,500 note to a real estate company owned by the buyer (note 4) bearing interest at 7.50% with a payment guarantee from Foxhound Holdings, LLC, a credit worthy counterparty. Sale proceeds in excess of debt settlements and closing costs were retained by the Company for working capital purposes (approximately \$11,302). The Company recognized a non-taxable gain on the sale of the portfolio of approximately \$30,153. Upon completion of the Foxhound portfolio transaction, Commonwealth Senior Living has ceased to manage any properties owned by the Company. Two of the properties sold within the Foxhound portfolio are subject to a put option whereby the Company may be obligated to purchase back both properties. The put option expires on June 30, 2026, with the strike price dependent on occupancy metrics as specified in the purchase and sale agreement. As of December 31, 2025, the Company has assessed, based on underlying performance of the properties, that there is minimal to no value in the put option on behalf of the current owner and therefore has not assigned any value to the executory contract.

On June 18, 2025, the Company acquired the operating contract at a property in Zachary, Louisiana. The property was previously under a triple-net lease and reported as investment property. At the time of acquisition, a purchase and sale agreement was executed to sell the property by the end of the third quarter of 2025. On September 15, 2025, the Company sold the property and operations for a sale price of \$9,250 before closing costs. The closing of the sale included the paydown of a mortgage affiliated with the property with a principal balance of \$6,500. After closing costs, the net proceeds of the sale (\$2,430) were retained by the Company for working capital purposes.

On August 21, 2025, the Company executed a purchase and sale agreement to sell a subsidiary of the Company which owned four investment properties operated by Autumnwood for a total sale price of Canadian \$31,000. On December 23, 2025, the Company sold the subsidiary, including all four investment properties and related outstanding mortgages which were assumed by the buyer. The disposition resulted in the recognition of a \$1,773 loss on translation of foreign currency in the consolidated statement of loss and comprehensive loss.

As of December 31, 2025, the Company recognized a loss on disposition of \$529 related to adjustments made at

# INVESQUE INC.

Accounts payable and accrued liabilities	\$ —	\$ 5,829
Mortgages payable	—	33,094
Commonwealth preferred unit liability	—	58,606
Other liabilities	—	1,240
<b>Total liabilities related to assets held for sale</b>	<b>\$ —</b>	<b>\$ 98,769</b>

### *Correction of an Immaterial Error - Adjustment to Comparative Statement of Financial Position and Statement of Changes in Shareholders' Equity*

During 2025, management corrected an immaterial error relating to the year ended December 31, 2024. Depreciation expense totaling \$2,918 was incorrectly recorded in the fourth quarter of 2024 in connection with property, plant, and equipment subsequent to its classification as held for sale in September 2024. As a result, the carrying value of property, plant, and equipment within Assets Held for Sale was understated as at December 31, 2024, and depreciation expense, as well as, net income (loss) and comprehensive income (loss) were overstated by the same amount for the year then ended.

The adjustment resulted in an increase of \$2,918 to total assets and impacts the following captions within the comparative statement of financial position as at December 31, 2024 as presented in these consolidated financial statements: Assets held for sale - PP&E previously reported \$315,254; as adjusted \$318,172; Total assets previously reported \$637,220; as adjusted \$640,138; Shareholders' equity previously reported \$119,172; as adjusted \$122,090; Total liabilities and shareholders' equity previously reported \$637,220; as adjusted \$640,138. In addition, the cumulative deficit as at January 1, 2025 as reported within the consolidated statements of changes in shareholder's equity has been adjusted by \$2,918 resulting in a decrease from (\$505,454) as previously reported as at December 31, 2024 to an amount as adjusted of (\$502,536).

In addition, the net loss and depreciation expense captions per the Company's consolidated statement of loss and comprehensive loss and the consolidated statement of cash flows for the year ended December 31, 2024 were adjusted by the same amount as noted above.

## 15. Discontinued operations:

A strategic decision was made by the Company to exit the medical office building segment in 2022. On July 26, 2022, the Company sold a medical office building in Orlando, Florida, and on July 28, 2022, it sold ten medical office buildings in Canada. On November 28, 2022, the Company sold a medical office building in Brantford, Ontario. On April 7, 2023, the Company sold a medical office Building in Orlando, Florida and on August 14, 2024, the Company sold a medical office building in Buffalo, New York. On December 18, 2025, the Company sold the final medical office building in Camillus, New York for \$4,100.

The assets and liabilities of the discontinued operations as at December 31, 2025 and December 31, 2024 are as follows:

	December 31, 2025	December 31, 2024
Investment properties	\$ —	\$ 4,400
Other assets	—	72
<b>Total assets of discontinued operations classified as held for sale</b>	<b>\$ —</b>	<b>\$ 4,472</b>
Other liabilities	\$ —	\$ 218
<b>Total liabilities related to discontinued operations classified as held for sale</b>	<b>\$ —</b>	<b>\$ 218</b>

The following is a summary of the results of discontinued operations:

	Year ended December 31,	
	2025	2024
Rental revenue	\$ 1,021	\$ 1,233
Other revenue	5	(2)
Direct property operating expense	974	1,119
Net finance costs from operations	210	755
Real estate tax expense	287	356
General and administrative expense, net of tax refunds	(86)	115
Transaction costs	187	36
Allowance for expected credit losses	—	163
Change in fair value of investment properties - IFRIC 21	(7)	3
Change in fair value of investment properties	443	(844)
Foreign exchange loss (income) reclassified from other comprehensive income	(48)	(63)
<b>Net loss from discontinued operations</b>	<b>\$ (934)</b>	<b>\$ (409)</b>

Cash flows from discontinued operations, as included in the applicable activities reported in the consolidated statement of cash flows:

	Year ended December 31,	
	2025	2024
Net cash provided by (used in) operating activities	\$ (35)	\$ 1,049
Net cash used in financing activities	—	(3,007)
Net cash provided by investing activities	—	1,850

Years ended December 31, 2025 and 2024

## 16. Share capital:

(a) *Common shares:*

The following number and value of common shares were issued and outstanding as at December 31, 2025 and 2024:

	Common shares	Carrying value
Balance, December 31, 2023	56,206,294	\$ 518,370
Issued on settlement of Deferred Share Incentive Plan	18,876	5
Issued on convertible debenture modification	140,516,942	13,349
Issued on preferred share exchange	716,875,000	68,103
Balance, December 31, 2024	913,617,112	\$ 599,827
Issued on settlement of Deferred Share Incentive Plan	457,281	38
Common shares forfeited on loan receivable settlement (note 4)	(555,556)	(3,800)
Balance, December 31, 2025	913,518,837	\$ 596,065

The number of authorized common shares is unlimited. All outstanding common shares are without par value. The holders of common shares are entitled to one vote in respect of each common share held of the Company and are entitled to receive dividends if, as and when such dividends are declared by the board of directors. In the event of the dissolution, liquidation or winding up of the Company, whether voluntarily or involuntarily, or any other distribution of assets of the Company among shareholders for the purpose of winding up its affairs, the holders of common shares are entitled to receive the remaining property and assets of the Company.

## 17. Loss per share:

Basic income per share is calculated using the weighted average number of shares outstanding during the period. The calculation of diluted income per share, is calculated using the "if-converted" method and to the extent the conversion is dilutive, assumes all convertible securities have been converted at the beginning of the period, or at the time of issuance, if later, and any charges or returns on the convertible securities, on an after-tax basis, are removed from net earnings.

*Denominator for basic and diluted net loss per share:*

	Year ended December 31,	
	2025	2024
Weighted average number of shares, including fully vested deferred shares: Basic and diluted	913,996,767	61,360,442

Years ended December 31, 2025 and 2024

## 18. Revenue:

### (a) Tenant Rental Revenue:

Tenant rental revenue consists of the following:

	Year ended December 31,		Year ended December 31,	
	2025		2024	
Contractual rental revenue	\$	7,468	\$	16,885
Straight-line rent adjustments		282		1,180
Amortization of tenant inducements		(120)		(242)
Amortization of leasing commissions		(8)		(20)
Property tax recoveries		1,923		4,061
	\$	9,545	\$	21,864

As of September 16, 2025, the Company no longer has interests in investment properties with triple-net leases.

### (b) Resident rental and related revenue:

	Year ended December 31,			
	2025		2024	
Resident revenue	\$	49,525	\$	112,284
Service revenue <sup>(1)</sup>		10,348		24,611
	\$	59,873	\$	136,895

(1) Represents relevant services at properties that are owner-managed, which are recognized as services are performed in accordance with IFRS 15.

## 19. Direct property operating expenses:

Direct property operating expenses consist of the following:

	Year ended December 31,			
	2025		2024	
Repairs and maintenance	\$	1,446	\$	2,838
Utilities		2,062		3,725
Compensation and benefits		29,364		66,378
Other services and supplies		3,455		8,475
Administrative and marketing		4,128		9,669
Real estate taxes		1,085		2,024
Insurance		1,277		2,789
Other		2,882		3,265
	\$	45,699	\$	99,163

## 20. Net finance costs:

Net finance costs consist of the following:

	Year ended December 31,	
	2025	2024
Interest expense on credit facilities	\$ 6,510	\$ 20,927
Interest expense on mortgages payable	6,428	12,402
Interest expense on debentures	2,669	—
Interest expense on convertible debentures	—	5,017
Interest expense on interest rate caps and swaps <sup>(1)</sup>	580	4,452
Dividends on Commonwealth preferred units	2,190	4,571
Amortization and accretion expense	1,821	5,551
Net income from interest rate swaps	(675)	(4,347)
Debt extinguishment costs	1,187	273
Loss on preferred share exchange	—	656
Gain on loan exchange	—	(685)
Gain on debenture extinguishment	—	(5,376)
Amortization of mark-to-market debt adjustments	(183)	6,253
Net finance costs from operations	\$ 20,527	\$ 49,694
Allowance for credit losses on loans and interest receivable (note 4)	2,068	1,759
Allowance for credit losses on taxes and insurance receivable	465	2,415
Change in fair value of financial instruments (notes 4 and 11)	3,542	(799)
Accretion of fair value adjustment on convertible debentures	—	6,264
Change in non-controlling interest liability related to finance costs from operations	(39)	(44)
Total finance costs	\$ 26,563	\$ 59,289

(1) Represents the initial premium paid for interest rate swaps and a currency exchange rate options entered into during the year and the amortization over the term of the derivative contract of the premiums paid for interest rate caps.

# INVESQUE INC.

Notes to Consolidated Financial Statements

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

## 21. General and administrative:

General and administrative expenses consist of the following:

	Year ended December 31,	
	2025	2024
Compensation and benefits	\$ 7,874	\$ 15,880
Professional fees	2,295	2,955
Deferred share compensation expense	2	(77)
Insurance	564	680
Rent	289	446
Other	876	1,886
	\$ 11,900	\$ 21,770

For the year ended December 31, 2025, \$4,393 (year ended December 31, 2024 - \$10,039) of general and administrative expenses noted above, most of which were reflective as part of compensation and benefits, were incurred at the Commonwealth Senior Living's management company.

## 22. Deferred share incentive plan:

At December 31, 2025, the number of deferred shares granted and outstanding and vested are as follows:

	Granted/ Outstanding	Fully Vested
As at December 31, 2023	485,595	452,028
Discretionary Deferred Shares	—	18,876
Equity Settled Deferred Shares	—	—
Individual Contributed Deferred Shares (vested immediately)	—	—
Company Contributed Deferred Shares	—	5,253
Shares issued upon vesting of deferred shares	(18,876)	(18,876)
Shares forfeited	(9,438)	—
As at December 31, 2024	457,281	457,281
Shares issued upon vesting of deferred shares	(457,281)	(457,281)
As at December 31, 2025	—	—

For the year ended December 31, 2025, the Company recognized \$2 of expense related to deferred shares in the consolidated statements of loss and comprehensive loss (year ended December 31, 2024 - \$(77)). A deferred share liability of \$nil is included in other non-current liabilities in the consolidated statements of financial position as at December 31, 2025 (December 31, 2024 - \$37). During 2024, the Board of Directors elected to discontinue the deferred share incentive plan.

The deferred share incentive plan compensation expense was measured on grant at the service commencement date, based on the fair market value of the Company's shares, and amortized over the applicable vesting period. No deferred shares were granted during the years ended December 31, 2025 and December 31, 2024.

Notes to Consolidated Financial Statements

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

## 23. Related party transactions:

Related party transactions in addition to those disclosed elsewhere in these consolidated financial statements are as follows:

On March 29, 2024, the Company announced that IVQ Stock Holding Company, LLC ("ISHC"), a company controlled by Adlai Chester ("Mr. Chester"), the Company's Chief Executive Officer and a member of its board of directors, entered into a share purchase agreement to acquire 16,982,283 common shares of the Company from certain subsidiaries of Tiptree Inc. (collectively, "Tiptree") at a price of \$0.0368 per common share and an aggregate purchase price of \$625,000. Following the acquisition, which closed in the second quarter of 2024, Tiptree no longer owns or controls any shares in the Company. Following the execution of the Preferred Share Exchange (see below), ISHC and Mr. Chester own less than 5% of the outstanding common shares of the Company.

On November 26, 2024, the Company announced the approval of holders of Common Shares of the exchange of certain funds (the "Exchanging Magnetar Funds") managed by Magnetar Financial LLC ("Magnetar") whereby Magnetar agreed to exchange the Company's class A convertible preferred shares held by it for 716,875,000 common shares of the Company (the "Preferred Share Exchange") (note 16). The closing date of the exchange, which was conditional on the successful closing of the convertible debenture modifications, was December 30, 2024. Based on the number of common shares outstanding as of the date hereof, following the convertible debenture amendments and the Preferred Share Exchange, Magnetar and the Exchanging Magnetar Funds collectively through several separate funds own over approximately 80% of the Company's Common Shares.

### *Key management personnel compensation:*

The remuneration of key management personnel of the Company for the years ended December 31, 2025 and 2024 is set forth in the table below.

	Year ended December 31,	
	2025	2024
Officers and directors' compensation	\$ 2,927	\$ 2,675
Contractual severance	—	3,060
	\$ 2,927	\$ 5,735

## 24. Income taxes:

The income tax recovery in the consolidated statements of loss and comprehensive loss differs from that expected by applying the combined federal, provincial and state income tax rates of 26.5% (2024 - 26.5%). The differences for the year ended December 31, 2025 and 2024 are as follows:

	Year ended December 31,	
	2025	2024
Net loss from continuing operations before income taxes	\$ (30,556)	\$ (34,415)
Income tax recovery at Canadian tax rate	(8,097)	(9,893)
Non-deductible expenses	2	(18)
Difference in tax rate in foreign jurisdiction	21	(368)
Unrecognized tax benefits	8,074	8,674
Income tax recovery	\$ —	\$ (1,605)

# INVESQUE INC.

Other	33	357
Deferred tax liabilities	\$ 33	\$ 2,621
Deferred tax assets not recognized, net	\$ 95,653	\$ 94,582
Net deferred tax asset (liability)	\$ —	\$ —

At December 31, 2025, the Company had cumulative non-capital losses for Canadian tax purposes of \$35,046 (2024 - \$29,702). At December 31, 2025, the U.S. subsidiaries had accumulated net operating losses available for carryforward for U.S. income tax purposes of \$202,690 (2024 - \$142,011). The pre-2018 accumulated net operating losses of \$26,132 will expire in 2037. The U.S. state net operating losses of \$207,227 will expire in 2031.

## 25. Commitments and contingencies:

There are risks which arise from the Company's joint arrangements, including the willingness of the other partners to contribute or withdraw funds and a change in creditworthiness of the partner. As a result, there may be a requirement by the Company to contribute cash into the operating partnerships, for operational shortfalls. Generally, there are no minimum or maximum contribution requirements of the partners contained in these agreements; rather, each partner is required to contribute a pro-rated share of the required amounts, commensurate with its ownership interest.

On December 31, 2018, the Company entered into an operating agreement with Javelina Ventures, LLC in which the Company was entitled to share in 5% of the net available cash flows from two rehabilitation communities in Arizona in exchange for a note receivable in minority ownership (note 4). Concurrently, the Company entered into an agreement to guarantee a total of \$5,000 of the mortgages on the properties operated by Javelina Ventures, LLC. The Company earns an annual guaranty fee of \$225 until the mortgages have been repaid or the guaranty is released. The guarantees were to expire upon repayment or settlement of the senior mortgages in place at the underlying communities, which matured on December 31, 2025. The Company assessed a \$nil value to the loan as of December 31, 2025, due to downward trends in operational performance at the underlying communities.

Pursuant to the Company's sale of an equity interest in an investment property and associated issuance of mortgage on July 8, 2022, the Company entered into an agreement to provide a 100% recourse loan guarantee of up to \$14,273 to the

# INVESQUE INC.

Notes to Consolidated Financial Statements

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

purchaser, applicable throughout the life of the mortgage. The amount of the loan guarantee may be reduced upon the achievement of performance covenants by the purchaser and related operations of the property, which have not been met as of December 31, 2025. The recourse will expire upon repayment or settlement of the loan, which matures on July 10, 2026 after an extension was executed in 2025.

Pursuant to various dispositions throughout 2024 and 2025 (notes 6 and 14), the Company agreed to customary seller indemnifications. The indemnification relating to the Foxhound portfolio disposition features a tipping basket of \$500,000 whereby the seller does not incur any liability until the sum of all claims is greater than \$500,000. The Company, as seller, received notice for a single claim under the indemnification, but the claim has not been substantiated and falls far short of the tipping basket threshold. As such, no provision has been taken as of December 31, 2025, nor has the Company recognized provisions in respect to any other indemnification per other property sales due to the recognition thresholds not being met based on assessments of both likelihood and an ability to reasonably estimate the risk of loss at this time.

## 26. Capital Management:

The Company's objectives when managing capital are to ensure sufficient liquidity to pursue its organic growth combined with strategic acquisitions and dispositions, and to maintain a flexible capital structure that optimizes the cost of capital at acceptable risk and preserves the ability to meet financial obligations.

The capital of the Company presently consists of mortgages payable, debentures, and common shares.

The Company sets the amount of capital in proportion to risk and manages the capital structure and makes adjustments to it in light of changes to economic conditions and the risk characteristics of the underlying assets, as well as with consideration of externally imposed capital requirements. In managing its capital structure, the Company monitors performance throughout the period to ensure working capital requirements are funded from operations, available cash on deposit and available financing. The Company may make changes to its capital structure in order to support the broader corporate strategy or in light of economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust its capital structure, the Company may issue equity or new debt, issue new debt with different characteristics to replace existing debt or reduce the amount of existing debt. For both secured and subordinated credit instruments with near term maturities, including those held as part of joint venture arrangements, the Company intends to refinance or repay the obligations. For refinancings, the Company intends to structure similar instruments to those in place currently.

The real estate industry is capital-intensive by nature. As a result, debt capital is an important aspect in managing the business. In addition, financial leverage is used to enhance terms from purchased real estate. The Company actively monitors debt maturities and available debt financing options.

Under the terms of the Company's certain mortgages payable, the Company is required to meet certain financial and non-financial covenants that are customary for the nature and phase of the Company's current business structure. At December 31, 2025, the Company was unable to comply with year-end covenants related to two mortgages held as part of joint venture investments. However, the Company was able to obtain a loan modification agreement on March 4, 2026 from one lender that waived the year-end covenant, and has a built-in cure mechanism with the other lender to apply existing reserves to principal payments on the loan. At December 31, 2025, the Company was in compliance with all other debt covenants. Going forward in 2026, the Company expects to be in compliance with all mortgage covenants based on an assessment of the Company's ability to adhere to the required terms.

# INVESQUE INC.

Notes to Consolidated Financial Statements

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

## 27. Fair value measurement:

The fair value hierarchy of assets and liabilities measured at fair value on a recurring basis in the consolidated statements of financial position is as follows:

	December 31, 2025			December 31, 2024		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Derivative instruments - asset	\$ —	\$ —	\$ —	\$ —	\$ 590	\$ —
Investment properties	—	—	—	—	—	207,526
Loans receivable	—	—	—	—	—	2,604
Profit-participation investment	—	—	330	—	—	700
Derivative instruments - liability	—	—	—	—	47	—
Deferred share liability	—	—	—	—	37	—
Debentures	—	27,300	—	—	27,300	—

For the assets and liabilities measured at fair value as at December 31, 2025, there were no transfers between levels during the period. For changes in fair value measurements of investment properties included in Level 3 of the fair value hierarchy, refer to note 6 for details. The fair values of the derivative instruments, when and as applicable, represent estimates at a specific point in time using financial models, based on interest rates that reflect current market conditions, the credit quality of counterparties and interest rate curves. Fair value measurements of derivative instruments and debentures were estimated using Level 2 inputs.

### *Fair value of financial instruments:*

The carrying amounts and fair values of financial instruments as shown in the consolidated statement of financial position are shown in the table below. The table below excludes cash, tenant and other receivables, security deposits, escrow deposits held by lenders, property tax receivables, accounts payable and accrued liabilities, accrued real estate taxes, and escrows collected from tenant, as the carrying amounts of these assets and liabilities are a reasonable approximation of fair value due to their short-term nature from origination to settlement.

	December 31, 2025		December 31, 2024	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Financial assets:				
Loans receivable	\$ 16,639	\$ 16,559	\$ 11,425	\$ 11,430
Derivative instruments	—	—	590	590
Bond assets	225	225	367	367
Profit-participation interest	330	330	700	700
Financial liabilities:				
Mortgages payable	6,072	6,072	148,224	143,348
Credit facilities	—	—	219,315	219,686
Derivative instruments	—	—	47	47
Debentures	27,300	27,300	27,300	27,300

Fair value represents management's estimates of the fair market value at a given point in time, which may not reflect fair value in the future. These calculations are subjective and require estimation and cannot be determined with precision.

# INVESQUE INC.

Notes to Consolidated Financial Statements

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

Changes in assumptions could significantly affect these estimates. There were no changes in the methods and assumptions used in estimating the fair values during the years ended December 31, 2025 and 2024.

## 28. Financial risk management:

The Company's activities expose it to a variety of financial risks: market risk (including foreign currency risk and interest rate risk), credit risk and liquidity risk. The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Company's financial performance.

### (i) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to interest rate risk on loans receivable because all of the loans earn interest at fixed rates.

The Company is exposed to interest rate risk on certain mortgages payable, which bear interest at variable rates. To manage interest rate risk, the Company had entered into certain derivative financial instruments, including interest rate swaps and caps, which effectively fix interest on a portion of its variable rate debt. It may also enter into additional derivative financial instruments from time to time to mitigate interest rate risk. As the Company renews maturing debt, it is also subject to higher interest rates in the variable interest rate environment and required credit spreads of lenders.

The Company's interest-bearing financial instruments were as follows:

	Carrying Amount	
	December 31, 2025	December 31, 2024
Fixed-rate financial liabilities <sup>(1)</sup>	\$ 27,300	\$ 88,287
Variable-rate financial liabilities <sup>(2)</sup>	\$ 6,072	\$ 306,552

(1) Includes debentures with an interest rate of 9.75%. The debentures were settled in full subsequent to year end (note 30).

(2) Includes a variable rate mortgage with a principal balance of \$6,133 and a maturity of April 10, 2027.

As at December 31, 2025, an increase/decrease of 100-basis-points in interest rates as applied to variable interest rate debt that has not been economically hedged, assuming all other variables are constant, would result in a \$61 (2024 - \$1,234) change in the Company's finance costs over the next year.

### (ii) Credit risk:

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the Company by failing to discharge its obligations. The Company is exposed to credit risk on all financial assets and its exposure is generally limited to the carrying amount on the consolidated statement of financial position. The Company is exposed to credit risk arising from the possibility that a borrower may be unable to fulfill their contractual obligations. In the event that borrowers are not able to meet commitments, the Company could suffer a loss of either interest or principal or both. The Company actively manages its affairs to minimize its credit risk through careful selection and assessment of its credit parties and collateral based on knowledge obtained through means such as due diligence carried out in respect of transactions and partnerships with new operators. The Company actively monitors its portfolio of loans and interest receivable to ensure its financial position and loss exposure is accurately reported. The Company also manages credit risk related to its cash balances by ensuring deposits are with reputable banking institutions.

# INVESQUE INC.

Notes to Consolidated Financial Statements

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

(iii) Liquidity risk:

The Company's principal liquidity needs arise from working capital requirements, debt servicing and repayment obligations, and capital expenditures applicable at properties.

Liquidity risk arises from the possibility of not having sufficient debt, cash and equity capital available to the Company to refinance or meet its payment obligations as they arise.

The Company is subject to the liquidity risk that it will not be able to meet its financial obligations as they come due. Although a portion of the cash flow generated by the investment properties is devoted to servicing outstanding debt, there can be no assurance that the Company will continue to generate sufficient cash flows from operations to meet its covenant requirements as well as its interest payments and principal repayment obligations upon an applicable maturity date. If the Company is unable to meet its covenant requirements, principal or interest repayment obligations, it could be required to renegotiate such payments, issue additional equity or debt, or obtain other financing. The failure to make or renegotiate interest or principal payments, issue additional equity or debt, or obtain other financing could have a material effect on the Company's financial condition and results of operations. The Company manages its liquidity risk through cash and debt management and forecasting. The Company plans to address scheduled interest payments through operating cash flows. The Company plans to address scheduled debt maturities and reduced leverage capacity (note 1) through a combination of refinancings of the underlying properties and asset sales.

The Company is subject to risk that it will not be compliant with certain covenants that underlie its credit obligations. If the Company is unable to meet certain covenants, the Company may be required to obtain waivers or other financing, repay some or all of the corresponding obligation, or potentially be required to sell the corresponding property underlying the credit obligation.

The following are the contractual maturities of the Company's financial liabilities as at December 31, 2025, including expected interest payments based on interest rates in place, where applicable:

	Total	2026	2027 <sup>(1)</sup>	2028	2029	2030	Thereafter
Mortgages payable principal	\$ 6,133	\$ —	\$ 6,133	\$ —	\$ —	\$ —	\$ —

(1) The Company settled the debentures in full in January 2026 (note 30) prior to its stated maturity date with cash on hand. Accordingly, the interest obligations in 2026 and 2027 have been reduced to \$163 and nil, respectively.

Mortgages payable is comprised of a mortgage secured by an individual property classified as property, plant and equipment.

# INVESQUE INC.

Notes to Consolidated Financial Statements

(Expressed in thousands of U.S. dollars unless otherwise noted, except share and per share amounts)

Years ended December 31, 2025 and 2024

Accounts payable consist primarily of professional fees, other general and administrative costs payable, accrued interest, and other accrued costs. The Company settles accounts payable from cash generated from operations in the normal course. Other non-current liabilities relate to a lease liability. The Company expects to settle other non-current liabilities with cash flows available and generated from operations in the normal course.

## **29. Segments:**

The Company's current portfolio includes investments in assisted living, independent living and memory care. The portfolio is classified into categories of: 1) long-term, triple-net leased properties, 2) wholly-owned properties and underlying operations, 3) interests in both the property and operations in joint ventures and joint arrangements with the operating partners at the facilities, and 4) medical office buildings. The Company's investment in medical office building is classified as part of discontinued operations.

The following tables show the net loss by reportable segment, consistent with historical segmented reporting disclosed by the Company, for the years ended December 31, 2025 and 2024. Prospectively, the Company will be managing, overseeing, and allocating resources of the entity as a single operating segment.
